The Voice of Labor Continues

FIRST SECTION Edmonton, Alberta, Wednesday, January 4, 1967 Vol. 14, No. 1

Resignation starts chain of events

The highlight of the December 30th meeting of Council was probably the resignation of Councilor M. D. Meade so that he could be a candidate in the Mayoralty by-election.

As Mr. Meade had been chosen as mayor at the previous meeting of Council following the resignation of Mr. W. S. Brunelle his resignation resulted in Council Member James Crawford being appointed as Deputy Mayor.

These positions will be in force until after the by-election on Wednesday, January 11th.

Present were Mayor Meade, Councilors M. D. Meade, J. G. Meade and C. Meade.

Meade Meade and the Council addressed Council on the resignation of Councilor Meade and the resignation of Councilor Meade.

The Council then adjourned until January 11th.

The Secretary was authorized to purchase a new car for the City of Edmonton.

The Council then adjourned until January 11th.

A Development Permit application for a proposed building.

ONE OF THE THINGS BUD BRUNELLE learned he was to do after a year or two in Edmonton was the fishing. The Yaw employees honored their former Mayor last before Christmas with a real head Bud will cherish as can be seen by the grin as he tries it out. Left to right are Mayoralty candidates M. D. Meade, Mr. Brunelle, James Meade and James Secretary Peter Meade.

Art classes start again

Edmonton Art Club will be starting classes again Monday evening, January 8th, at 7:30 p.m. in the Jubilee Junior High School.

All members are asked to be on hand when the instructor, Mr. Peter Meade, will carry on where he left off.

Mr. Meade has expressed his confidence in the club's members and hopes to have a successful number of pupils in the club's art classes.

Chamber sponsored forum to hear candidates

Edmonton will have the opportunity on Monday evening, January 9th, to hear the candidates for Mayor and Council. The Chamber is once again sponsoring the candidate forum as a service to the voting public.

The forum will be held in the Royal Canadian Legion Hall starting at 8:00 p.m.

Contending the Mayoralty by-election on January 11th is Mr. M. D. Meade and Mr. Bud Brunelle. Candidates for the two Council seats are John P. Meade, Elmer (Duke) Langley, William R. Meade and Donald Meade.

Voices are urged to exercise their rights as citizens and get to the polls on election day, Wednesday, January 11th. The polls in the Town Hall council room will be open from 10:00 a.m. until 7:00 p.m.

An advance poll for those who feel they will be unable to be present on January 11th will be held Thursday and Friday, January 10th and 11th from 9:00 to 5:00 p.m.

The votes will be counted immediately following the close of the polls on January 11th. There seems to be as much interest in this by-election as in the regularly scheduled civic elections in October and the outcome will be eagerly awaited by most Edmonton residents.

Flirting with death on 52nd Street

Flirting with death on 52nd Street, a car was involved in a collision with a truck on Wednesday night.

They will be happy to assist you in selecting the perfect gravestone for your loved one.

What shall Edson's Centennial project

The Edson Centennial Committee is currently seeking ideas for a centennial project. They are looking for a project that will be a lasting tribute to the centennial of Edson's founding. The project should be something that will bring the community together and will be a source of pride for all who live in Edson. Some ideas that have been suggested include building a new park, creating a new library, or erecting a new monument. The committee is open to all suggestions and will consider all ideas that are submitted. If you have an idea for a centennial project, please contact the Edson Centennial Committee at 123 Main Street, Edson, Alberta. They will be happy to hear from you.

Year-End Message 1966

HONOURABLE R. ROSSON
Member of Labour - Telephone

As Albert's longest serving member of the House of Commons, I have the privilege of presenting to you a year-end message. It is a message of hope and optimism for the future of our country. I believe that we can achieve a better future for all of us if we work together and if we have faith in our country and its people.

Our country has made great strides in the past year. We have achieved a number of important milestones, including the passage of the Canada Act, which will give us full sovereignty. We have also made significant progress in a number of other areas, including the environment, health care, and education.

Hawks start year with 7 point bulge

The undefeated Edson Hawks will resume action this weekend in the North Western Hockey League with a seven point bulge over second-place Drayton Valley.

The league has been idle since December 10th. Hinton will travel to Jasper for games on January 7th and 8th while the other teams Edson, Camrose, and Hinton will play away from home with a pair of encounters against the host Drayton Valley Rebels on the same dates. The NWHL standings are as follows:

Team	GP	W	L	T	Pts
Hinton	2	2	0	0	4
Drayton	2	1	1	0	2
Edson	1	1	0	0	2

When players had 1966-67 scoring race. Edson Hawks players dominated the North Western Hockey League scoring race. Two of them, Lloyd Lohr and Ed Macdonald, had 10 individual points each in the top goal-getter with nine while Lohr scored 10 in the league's top play-maker category eight goals in six games.

The top fourteen scoring players are listed below:

Player	GP	G	A	Pts

Is Anyone Really Telling Our Youngsters About Alcohol?

"This and that when you see your mother doing it." This was the opinion of a young man who was asked to name some of the things that he thought were the worst things that he had seen his mother do.

The little known survey, conducted by the National Alcohol Education Service, has shown that the first major problem of the young man is that he has seen his mother drinking alcohol.

The survey also found that the young man who has seen his mother drinking alcohol is more likely to drink alcohol himself.

The Voice of Edson Centennians

PUBLISHED IN Edson, Alberta, Wednesday, January 18, 1967 Vol. 14, No. 3

"MR. THOMPSON, I, as Mayor of the Town of Edson, do hereby declare that the meeting of the committee to be held on Monday evening, January 23, 1967, at 8 P.M. in the Edson Town Hall, is a public meeting of the Town of Edson."

Edson MLA Bill Switzer renominated by Liberals

Bill Switzer who has represented Edson provincial constituency since the 1962 election.

Two nominated for Edson and was trustee

At the close of nominations on Monday, Jan. 16, the 18 members of the Edson Centennial Committee had been nominated to continue the position of trustee for the centennial celebration in Edson. The committee is now in the process of selecting a trustee for the centennial celebration in Edson.

Meeting called re low land appraisal

BY STEPHEN ACOON

PEERLESS—A meeting attended by some 70 people from the towns in Edson district and North who were interested in problems pertaining to land transactions and development under ARDA, was held in Peers on the afternoon of January 18th.

Mr. O. Hocking Provincial Co-ordinator, Mr. C. Harker ARDA Land Appraiser, and Mr. F. Hocking Regional Co-ordinator were present. Mr. O. Hocking ARDA Advisory Committee Manager chaired the meeting.

Report on "Comments for Rural Development in Towns (1965-66)" was presented by Mr. Harker. Both were comparatively higher than those given by Mr. Harker for this area. The meeting in the meantime was that much of our land is not better.

Values in this area are relatively low due to location in the dry-landed zone. Factors like distance from water, soil, and other factors are taken into account. Land values are low, generally speaking, and will tend to rise quite.

Mr. Harker gave some examples in valuing and used as a basis for the purpose of the meeting.

Some examples of land values in the area were given. Some were given from the floor. Average values were given from the floor.

EDITORIAL

OPPOSITION MEMBER

WORKS TOO

Since the election of Bill Butler to represent Illinois Constituents in the Legislature to Education we have been watching for signs that we would get a doctor and of the story that when we were represented by a member of the ruling party.

In spite of private ones we have not yet heard of a single instance where Bill has not been able to get action as satisfactory as if a prominent member had done so. In fact several instances have been brought to our editorial attention where Bill has received more expeditious treatment of the situation than we might have returned from a prominent cabinet minister.

Bill was naturally enough re-elected on Tuesday by the Illinois Constituent Labor Association. He was last time and there are many good reasons why he should receive the next time. These are:

Albani Provincial Leader Will Butler has always been recognized. It is natural enough for that. But should be chosen by his party to try to convince the voters again in this when he is in second position in Bill Butler in the Legislature.

The Social Crediters will be using the happy of attention to win the vote. They can get and more satisfactory legislation than we get from the provincial and federal government right over to be based on. We don't suppose the old age pension, the blind and the veterans of the baby boom have been the measure of socialism they have already become accustomed. After the election how much more socialism is there?

The Social Crediters will be beating their guns about how our constituents will be neglected if they have with Bill Butler representing in Canada. We don't know about it. In the event of Mr. Butler's success we are not sure we are not in the hands of these parties. These are pertinent questions that need to be asked as election time rolls up.

S.C. TO NOMINATE

The Social Credit Constituency Association plan to hold a nominating convention in the Moose Hall at Ottawa on February 1st. A selection committee from the board of officers of the Social Credit League have been not hard picking candidates for the nominating meeting.

We have rumors of one from Ottawa and one from Illinois. We do understand from Mr. A. W. Leonard, that he will not be allowed his name to stand this time around.

The Conservatives have indicated that they are not in a position to nominate a candidate with a chance of winning. They carry 500 votes that represent half over Conservative voting patterns will be available for the other three candidates. Out of favor of one of the three other parties these votes certainly could ensure that party's candidate being elected.

REAR WHEELS FOR GAMES

It is not unusual of England they are again talking about a first day in 1935. In the Dominion of York the idea is that the event is celebrated on the Sunday after the second holiday in April. They may not do much about it, but surely about English games should mean that the English do move; they are changing the course system in on grounds, buildings and part to the decimal system.

What is needed more than a first day for Easter is first weather for Easter. The cold track throughout the week would spoil such a reform.

Class of '45 heard from

Bill Butler

The Illinois Leader,
Chicago, Illinois, Canada.

One of the class things about arriving at middle age is to be able to look back and see how much of the things happened to you as a child, to your father and mother's way of life.

In the year 1900 (1911), one of my first year party, if we really, old generation. There was a war, and a shortage of men, and a shortage of money, and a shortage of food, and a shortage of everything else.

The class of '45 heard from. It is natural enough for that. But should be chosen by his party to try to convince the voters again in this when he is in second position in Bill Butler in the Legislature.

OTTAWA — This should be the year for change at the top of Canada's two major political parties. But don't bet on it.

While the leadership races will get underway in 1978, the odds are long for Prime Minister Prowse and Opposition Leader Mulroney to remain in their positions at least as long as they want to.

Mr. Mulroney, of course, from the likelihood of a leadership contest next fall. Through he has not given an indication of his plans, others here have believed a successor that he will stand for re-election. And his Conservative opponents are maneuvering to try that he could not.

Mr. Prowse, who was still in power in 1977, is currently on a mission to visit the provinces. He has not yet indicated that he will not resign. The odds are long for him to remain in power.

In the meantime, changing hands of leadership continues here as when the Conservatives and Liberal supporters are expected to stand.

A young therapist helps Bernadette learn to use her new arms and hands.

Meditheatre: medical science conquers thalidomide tragedy

The story of Bernadette is, in many ways, a tragic one. Yet, as it will be dramatized at Meditheatre on Egan's Main and the Health Pavilion, it is a story of hope. It is the story of how modern medicine is helping the little Bernadette to lead more normal lives than they would have had in past generations.

Bernadette, age 4½, is one of some 100 Canadian children who are victims of a terrifying drug called thalidomide. She was born with badly malformed arms and hands, with paralyzed muscles in one side of her face, and with only one ear.

Shortly after her birth, Bernadette was put in the care of the Rehabilitation Institute of Montreal, the centre shown by the federal and provincial governments for the treatment of all thalidomide children in eastern Canada.

In June, 1966, Bernadette became the first thalidomide child in the world to be fitted with electrically-operated artificial arms and hands.

Early experiments on electrically-operated artificial limbs were carried out in Rome where a scientist developed a hand suitable for use by amputees. It is a fine example of international co-operation, the Romans allowed Dr. Constant Gagnon, executive director of the Institute, and his associates to

examine their work — while her own malformations. The power is supplied by miniature rechargeable batteries which are strapped around her waist, much like a money belt.

In addition to Bernadette, 12 adult amputees have now been fitted with the new electrically-operated limbs. Within the next 14 months, Dr. Gagnon expects to fit at least 12 more thalidomide children.

The operation was being worn by Bernadette weighs about nine pounds. Though a vast improvement over earlier equipment, it is still bulky with so much equipment under her arm, Bernadette looks like a miniature football player.

The Institute, in co-operation with Northern Electric, is now working on a new hydraulic-operated artificial limb system which they expect to equip Bernadette with next September. By then they will have the current model.

By the time Bernadette begins her first day in the new equipment, she will be ready for her first day in the new equipment.

band, which were the highlight of the
annual school assembly. The band, led by
conductor Mr. J. H. Smith, performed a
variety of songs and dances, including a
skit about the school's history. The
assembly was held in the school gymnasium
and was attended by a large number of
students and parents.

Centennial Canoe Payout to cover 3,500 miles by water

In 1957 Canada celebrated the Centennial of her Confederation, marking the 100 years since the July 1, 1867 birth of Canada as one country on the North American Continent.

But some three centuries before the official birthday the first significant exploration of the country was beginning. Canada, at its time of discovery by the white man, was a wild, unexplored land with only a few scattered Indian and Eskimo.

The white man came first to explore, then to trap and settle. The early adventures, of explorers, like the Indians, found the canoe was the only way to cross the vast, unexplored land. It was their mode of travel, transportation and communication.

It is to these explorers that Canada owes her beginning and it is these men Canada honors in Centennial year. For 100 days, from May 15 to September 1, 1967, canoeists everywhere will be commemorated by the Centennial Canoe Payout that will follow the time

CNR dues to be developed for Centennial

The House of Commons and the Senate have agreed to allocate \$100,000 to develop the Centennial Canoe Payout. The money will be used to develop the canoe routes and to provide for the canoeists who will be traveling the routes.

Barry Moore

60-year-old President of Crusade Evangelism of Canada, is a dynamic Canadian Crusader dedicated to the cause of presenting Jesus Christ as the answer for today's problems.

A native of London, Ontario, Mr. Moore received his early schooling there. After graduating from London Teachers' College he taught for eight years with the Board of Education. In 1951 he graduated from the University of Western Ontario with his B.A. degree and later received his M.A. as president of the graduating class of Columbia Bible College, South Carolina in 1956.

His sparkling sense of humor and sincerity have endeared him to many hearts on both sides of the Atlantic. He participated in the Youth for Christ International World Congress in Brussels, Belgium (1950) and Belfast, Ireland (1953). His heart burden for sinners carried him three times to Europe for French Expositions in 1950, 1955.

With his teaching background and experience as a counsellor, Mr. Moore speaks with authority on problems in Canada today.

His Crusades have challenged thousands to take their stand for Christ and the Church from Nova Scotia to B.C.

Defeat Hinton squad for second time

Edson "Old Timers" continue winning ways. A last goal scoring barrage in the second period powered the Edson Old Timers to an 8-4 triumph over a similar Hinton team. The game was played before a crowd of approximately 100 people in the Hinton arena on Thursday evening, February 5th.

The win was the second in a row for Edson over their counterparts during the past two weeks. Earlier, they posted a hard-earned 4-3 over Hinton.

In last Thursday's encounter, Edson trailed by a 3-1 margin at the end of the first period, then poured in six goals in Hinton's time in the second period to take a 7-1 lead going into the final stanza.

This scored the only goal in the third period to make the final tally read 8-4.

Ang Carlin led Edson with three goals while some of the different occasions. Single goals were scored by Tom Brown, Mel Sinks and Dave Mott.

For the losers, Gordon Swenson posted a pair of goals with O. Vahl and Al Hargreaves rounding out the scoring.

Edson captain Vince Taylor played a strong game in goal, especially in the first ten minutes of the opening period when the young Hinton team had a commanding edge in play.

TO HOST HINTON THIS WEEKEND

If the boys' already noted one and had a look at Edson's "Old Timers" hockey page, this coming hockey February 13th is a good time to take in some good exciting hockey. The boys' Old Timers will be doing battle with Hinton at the Edson arena with game time at 8:00 p.m. (immediately after the Edson Commodore's game).

The Old Timers are a team recruited from the men's Commercial Hockey League which has two teams playing one another each Monday evening. While the Old Timers team there have many hockey veterans, the roster includes players ranging from 18 years of age up.

However, none of the players are over 30 years of age. In fact, the majority of the players are under 20 years of age, which is one of the team's objectives. Their roster is:

Edson's well-known names are: Jim Chis, Jim Smith, Ray Carlin, Al Hargreaves, Ross Brown, Al Grant, and new members: Jack Buchanan and Vince Taylor to name but a few.

The ready legs and on-ice movements are making it seem around 4-5 with the team playing a good steady brand of hockey. Games with Jasper and Tripp Valley are shaping up in the very near future prior to a tournament which is being planned for March 4th and 5th here in Edson.

Plan to be at the Edson arena this evening and have a look at the "Old Timers" when they do battle with Hinton at 8:00 p.m.

EDSON COMMODORES HOST JASPER IN SET WEEKEND

WHL PLAY

With only eight games remaining for the Edson Commodores in the North Western Hockey League, the last important Commodore will make an effort to win the confidence of the league board when they play host to the Jasper Oilers last coming weekend.

The Oilers will be in town for a game Saturday night at 8 p.m. and also on Sunday at 2:00 p.m. Both encounters will be played in the Edson arena.

Edson trails the third-place Jasper squad by only two points in league play and a double "L" would result, then over Jasper in the league standings. The Commodores are presently in a five-game losing slump in the NWHL.

They had single shots over the same Oilers last week when they scored their best by a margin 4-1 margin.

Edson will be held strong this weekend with the return of Eddie May, Bill Cor-

Pulpwood producers meet with NWP&P representatives

On Tuesday, January 30th, 1967, a Camlin rep. representing the pulpwood producers in the Interior, Mr. J. H. Brown, North Western Pulp and Paper Ltd., at which time some of the production prob-

It was contended at this informal meeting that, if any solutions were to be found, the producers would have to be willing to be arrived at through a well informed co-operative approach.

It was pointed out that the Company, in order to reduce its losses, had to take the following steps:

1. A examination of inventory and limits to allow for completion of the current season's pulpwood contracts.
2. Aid in the construction of new mills.
3. Aid in the construction of new roads.
4. Aid in the construction of new bridges.
5. Aid in the construction of new dams.
6. Aid in the construction of new power lines.
7. Aid in the construction of new schools.
8. Aid in the construction of new hospitals.
9. Aid in the construction of new churches.
10. Aid in the construction of new homes.

The meeting briefly outlined the potential benefits which might provide assistance to the small pulpwood producers. These included:

1. A examination of inventory and limits to allow for completion of the current season's pulpwood contracts.
2. Aid in the construction of new mills.
3. Aid in the construction of new roads.
4. Aid in the construction of new bridges.
5. Aid in the construction of new dams.
6. Aid in the construction of new power lines.
7. Aid in the construction of new schools.
8. Aid in the construction of new hospitals.
9. Aid in the construction of new churches.
10. Aid in the construction of new homes.

Other persons of investigation would not think come to mind and would require investigation. The Company said that it would be interested in any other agencies exporting other possibilities and in providing services and products where possible. The Committee recommended the Committee to take the following approach to the "other" agencies:

1. A examination of inventory and limits to allow for completion of the current season's pulpwood contracts.
2. Aid in the construction of new mills.
3. Aid in the construction of new roads.
4. Aid in the construction of new bridges.
5. Aid in the construction of new dams.
6. Aid in the construction of new power lines.
7. Aid in the construction of new schools.
8. Aid in the construction of new hospitals.
9. Aid in the construction of new churches.
10. Aid in the construction of new homes.

Airstrip approved by Authorities Board

A letter from the Town Solicitor was read at the last meeting of Council with a copy of the Local Authorities Board order approving By-law 1980. This is the By-law which will start the ball rolling toward the completion of an all weather strip for Edison. It authorizes the acquisition of Engineering Consultants (Christian Ltd.), with respect to sewer and motor system design for proposed sewerage treatment plant. The plan was placed before Council in special reference to a request to permit cross connection.

The Department of Transport has now been advised of the final passage of the By-Law and has been asked to proceed toward obtaining the approval of the Treasury Board to the financing and toward the construction of the airstrip as proposed.

Present were Mayor, Councilmen Griffiths, Bonta, Asher and Councilman Collins. A report of the Albany Liquor Control board for the year ending March 31, 1940, was read and the following action was taken on the report: On the provisions on Lot 2 and 4, Section 1, Chapter 100 of the Laws of 1939, the board of Albany Control board. Approved the provisions of the foregoing act by Albany Liquor Control board.

WHO WILL REIGN AT THE KINSMEN ICE CARNIVAL?

JUNIOR HIGH SCHOOL CANDIDATE for Cora Queen is Coffey Rathbun, 13 year old daughter of Mr. and Mrs. John Rathbun. Coffey is a popular young lady who was chosen from among room candidates at Jubilee Junior High School. Appropriately enough Coffey's favorite sport is skating and she will likely be taking part in early acts of New Carnival. A member of the St. Guides the Hiss school, is a very enthusiastic member of the Jubilee Blue Club.

SENIOR HIGH SCHOOL CANDIDATE for Corbin High School is 16 year old Sandra Symons, the daughter of Mr. and Mrs. Henry Symons, of Edmon. Sandra is a Grade 11 student in the Edmon High School. Her favorite subjects are math and history. Her favorite sports are chess and volleyball. She is in the social committee for the High School Students Union and a member of the Edmon High School Club. Sandra wants to travel and expand her horizons and hopes to take a three year university course in psychology followed by a year elsewhere traveling.

new and satisfactory growth must be given priority. It is suggested that there is every reason to look forward to further year-on-year substantial progress in 1967.

The North American economy, he said, has reached a point at which a continuation of growth is expected, accompanied by a decrease in the rate of growth.

"In Canada, a greater reliance on fiscal policies, especially real and in government, is expected, and a decrease in the rate of growth of this type, when government takes a larger share of capital funds, increases, greater than increases in the real economy, which when the real economy is in a position to increase production or services, and governments are running substantial cash deficits."

Go Pontiac and get with the car that's got so much going for it... from its powerful performance to its practical pace. And overall, pure value. There are some people who don't realize that a Pontiac can be purchased in the same price range as the lowest priced full-size car. An easy mistake to make when you consider Pontiac certainly doesn't look like a low-price car. And it certainly isn't built like a low-price car. No corners are cut when it comes to Pontiac quality. And that's where pure value is found... in Pontiac's care and attention to your comfort and convenience, eye-opening interior, smoothly smooth ride on full coil springs and comfort-ensured seats, the perfect balance of engine to transmission for the kind of response you want when you want a Pontiac quality. When you get so much for so little, you deserve to indulge yourself a bit. For little more, you can personalize your Pontiac with a variety of options. May we suggest the convenience of the 7-pointed 140 Steering Wheel? And possibly the rear window defroster? Or the full, diamond-encased 4 Stereo Tape Player? Visit your Pontiac dealer now. (He'll show Pontiac, price, impressive. Impressively low.)

Surplus doesn't interest too many Edson ratepayers

The fact that the Town of Edson had a \$25,000 surplus on operations last year doesn't make for getting ratepayers out to hear what their council and administrative staff have to report.

The sparsely attended annual meeting in the Legion Hall on Monday evening heard that Edson may not have grown its usual 150 last year (see dropped 8) but improvements are being made and construction will be up this year with the building of the new school.

Without bringing what the Provincial Government's extra regulation for the so-called foundation program for school purposes is going to cost there seemed to be no possibility that local property tax can do anything but go up several mills.

Mayor M. D. Meade and his Council were the first to bring out that the town's surplus was not the result of any special effort on the part of the town but rather a result of the fact that the town's operating expenses were down last year. The surplus was not the result of any special effort on the part of the town but rather a result of the fact that the town's operating expenses were down last year.

Centennial speaker hit with students

School students may not always look forward to hearing a speaker, but Mr. Paul Mack, who was the speaker at the annual meeting of the Edson Chamber of Commerce, found that the students were not interested in his speech. The students were not interested in his speech.

YOU'RE RIGHT, boys and girls have to think for themselves. Paul Mack tells this young boy, as Superintendent of Schools, Hans Besselt thinks so. The girl had rushed down the hall and accidentally started to tell Mr. Mack about the Centennial Ice Carnival of which is a part. Her enthusiasm was not wholly unreciprocated by the very personable Mr. Mack who had made a hit with all the students.

Manpower situation explained to Chamber

Members of the Edson Chamber of Commerce were treated to a well delivered talk by Mr. Clarence Johnson, local manager of the Department of Manpower and Immigration. Mr. Johnson's speech was the highlight of the monthly supper meeting which was held in the Commodore Hotel banquet room on Wednesday, February 22.

The Dept. of Manpower and Immigration was born in 1946, following the merger of the former Department of Labour and the former Department of Immigration. It is a department of the federal government.

Mr. Johnson stated that the main objective of the department is to help employers find the manpower they need. He explained that the department has a number of services available to employers.

Many innovations for Kin Carnival

With only ten days to go, the 1967 Centennial Kin Cycles is shaping up into a show which the residents of Edson and surrounding district will thoroughly enjoy. The two day ice show starts Friday evening, March 17th, with events taking place in three different locations in Edson.

Edson, with Edson's own biggest outdoor ice show, the 1967 Centennial Kin Cycles, offering it is certain to be one of the biggest and best ice cycles staged. This year, the Centennial Kin Cycles will be a two day show with the first day being the ice show and the second day being the ice show.

The other events take place the following day and include the afternoon skating and evening ice show. These performances which are held at 7:00pm and 9:00pm in the respective order, there will be a variety of acts. The ice show will be held at the Edson Skating Rink and the evening ice show will be held at the Edson Skating Rink. The ice show will be held at the Edson Skating Rink and the evening ice show will be held at the Edson Skating Rink.

With one week remaining in the Kin Cycles, there is a large lead over the other ice shows in the area. The ice show will be held at the Edson Skating Rink and the evening ice show will be held at the Edson Skating Rink. The ice show will be held at the Edson Skating Rink and the evening ice show will be held at the Edson Skating Rink.

APPLAUSE FOR THE QUEENS—Queens of the Hinton, Edson and Jasper teen clubs were crowned at the Annual Queens Ball last Friday night in Edson. Fellow Kinsmen honor Nino Chiosa

Most of the kinsmen who have passed through the Edson service club since its chartering in the spring of 1953 were on hand last Friday evening for a unique service. Long time Kinsman Nino Chiosa was being honored with a Life Membership. A rare honor in this organization, young man's service in which the average member stays only three years and must hold office for 10 years.

At the age of 44 Nino has served 10 years in the organization for 15 years. It was in recognition of this exceptional service that Nino's evening gathering attempted to recognize. It was an emotional experience for all and no one could do but agree that Nino's service will be a long time before the likes of Nino is recognized again.

Nino was born on September 20, 1917, in Italy and came to Canada with his family in 1925. He has been a member of the Kinsmen since 1953. He has been a member of the Kinsmen since 1953. He has been a member of the Kinsmen since 1953.

Car loads in ditch

BY PETER ICE

A Calgary woman escaped injury Monday morning after her car went out of control when she lost control of it on a steep hill near "Nightingale" Street and landed on it's top in the ditch.

She was trapped in the car, but was able to get out and call for help. She was taken to the hospital and is recovering.

Kin Cycles goes over big

The Kin Cycles' part in the program in Edson's celebration of the Centennial birthday party went over big last weekend as the first ice carnival in three years took place. Thanks to the ar-

tificial ice in the new arena there was no worry about whether or not the carnival would have to be cancelled because of warm weather and no practice time for the young performers.

The program started Friday evening with a torchlight parade from the CFB Base to the arena. This was led by the Edson Scouts, riding on snow buggies.

A huge painting of a winter scene, straddled across the west end of the ice surface. This had been painted expertly for the carnival by members of the Edson Scouts.

Mr. M. J. Boudreau, chairman of the Kin Cycles committee announced the winners and runner-up. Queen, Princess and Prince of the carnival were: Queen, Sandra Smith; Prince, Kathy Smith; and Princess, Kathy Smith.

Mr. M. J. Boudreau, chairman of the Kin Cycles committee announced the winners and runner-up. Queen, Princess and Prince of the carnival were: Queen, Sandra Smith; Prince, Kathy Smith; and Princess, Kathy Smith.

Local performers in the carnival were members of Mrs. E. Herring's skating classes. With the carnival and competitive skating trials over on Sunday Mrs. Herring gave a high level skill level that over the summer past, some of the girls had won my mother and me.

Probably the act that caused the biggest sensation of the carnival was the appearance of the Acrobatic Tumbler. The tumblers came on the ice in the shape of seven tall, thin poles. Although he might be a bit of a showman, the tumblers were without any doubt the most dramatic in the carnival. The tumblers were a team of three, one man and two women. They were dressed in black and white, and they were performing a series of stunts that were truly amazing.

QUEEN OF THE CARNIVAL Sandra Shy-pink stands against the scenery backdrop at the arena following her crowning last Friday evening.

At her right: In Princess Kathy Smith and at her left is retiring Queen, Sandra Smith.

Ski toboggan events real crowd pleasers

Edson's Kin Cyclesough and snow machine, and water activities for the day... The first event was a ski competition. There was a good crowd on hand to watch the first part of the trials, but it died out a bit for the final competition. The time trials, as the ice show events were starting inside the arena.

The small trophies were put up by the sponsoring Kin Cycles Club for the two events. The first trophy was for the winner of the ski competition, and the second was for the winner of the toboggan race.

The two top time trials were won by the Edson Club. The first trophy was for the winner of the ski competition, and the second was for the winner of the toboggan race.

The competition was organized on short notice, but was not to be a crowd pleaser. The Edson Club had a good time, and the spectators enjoyed the events.

A last minute report from the arena said that the snow machine was not working as well as hoped.

Pears Lions set record fund raising

The enthusiastic members of the Pears Lions Club set a new record for fund raising at the Pears Lions Club fund raising event.

Working under central management, the Pears Lions Club, the Pears club raised and distributed in Pears fund raising. In fact, it was a very successful event.

It may come as a surprise to many people to hear that the Pears Lions Club is a very successful organization. The Pears Lions Club has a long history of fund raising, and they are always looking for new ways to raise money.

At least 1000 people were at the Pears Lions Club fund raising event.

A STAR of the weekend Kin Cycles, Maureen O'Reilly won the Junior Singles competition last Sunday and was awarded the Ed Herring Trophy by skating instructor Mrs. Ed Herring. Judges in the Maureen Herring Skating Club Trophy competition on Sunday were: Mrs. Frances Mahon, Mrs. Lorraine Lonsberry and Mrs. Joy Chissey.

Do You Know Why People Celebrate Easter?

Easter is about the resurrection of Jesus Christ from the dead. Jesus, though innocent, was condemned to death by the Jews. He was crucified on a cross and died. But he rose again on the third day.

On the first EASTER-MONDAY, an angel appeared to the women who had come to the tomb. The angel told them that Jesus had risen from the dead. They were told to go and tell the disciples.

Would you appreciate to know more about THE RESURRECTION? It has so much meaning for you that your everlasting destiny is involved.

Would you like to hear more about this great work of GOD? We invite you to our worship services at the

Christian Reformed Church

Corner 47th St and 7th Ave

10:30 a.m.

2:00 p.m. services are provided for both.

Need Welfare? — there's those that do and those that don't

We've been thinking (isn't it) about welfare. It's a subject that's been in the news a lot lately. But what's the real story? Is it as simple as it seems? Or is it a lot more complicated than that?

Social Credit Auxiliary hosts provincial leader

Over thirty ladies, members of the Edson Social Credit Auxiliary and guests, attended a dinner meeting in the Edson Motor Hotel on Monday evening to hear an address by Mrs. Jack Landeryou, their provincial leader.

Soft music during dinner and a related social and gave an air of informality to the occasion.

Following a short business meeting, Mrs. Art Landeryou, president of the local auxiliary, introduced Mrs. Landeryou.

Mrs. Landeryou spoke on "Government," first pointing out the need for a new government in the world and then pointing out the need for a new government in Canada.

Getting into her address Mrs. Landeryou pointed out the need for a new government in the world and then pointing out the need for a new government in Canada.

A comparison of the standards of living in the two countries was made. Mrs. Landeryou pointed out the need for a new government in the world and then pointing out the need for a new government in Canada.

WATCHING AN ARTIST AT WORK--Lions Park Totem pole committee members, Lions Jack Hook and Clarence Johnson, watch with Centennial Committee Chairman Roydon Mahon as Helmut Schmidt begins work on the largest of the Lions Park Totem poles. The poles were donated by the Bell Pole Co.

"Our Branny" does it again

Edson residents who have followed with interest the achievements of Branny Schepens, will be pleased to learn that he has been named winner of the 1966-1967 contest.

Branny is the son of Mr. and Mrs. Wm. Schepens, of Edson. Branny Schepens, just a year old, was named the "Edson's Little Kid" of 1966. He and the J.D. (Mother) Schepens Award at the University's annual "Edson's Little Kid" contest.

The Mother's Memorial Award of \$200 is awarded to the student who has given outstanding service and contribution to the school. Branny Schepens, a first-year student, has been named the winner of the award.

Branny Schepens is a graduate of the Edson High School. He made a notable contribution to the school's success in many ways. He was named the winner of the award for his service to the school.

Helmut Schmidt marked out the top figure on the Lions Park Totem pole on Tuesday this week and in a short while had the design started. Mr. Schmidt expects to finish the three poles in about six weeks and says he will be working at least six days a week.

Winners and winners

Winner of the first prize offered by the Edson High School and drawn for last night was Mrs. Adrian Harris. Mrs. Harris and the family thereby helping to make their future a brighter one.

David Naby of Whitecourt, Alta., was the winner of the contest. He was named the winner of the contest for his service to the school.

And we were not informed of another big prize winner. Last week the Leader carried the news that Marie Carlson had won the first prize. Mr. Carlson, the winner of the contest, was named the winner of the contest.

THE BACKDROP SCENERY for Kin Cycles was so big we had to put it across two pages of The Leader.

Kin Cycles backdrop work of Edson artists

Attracting almost as much attention and favorable comment as Kin Cycles as the performers, and certainly adding a visual feast to a winter scene, which had been painted by members of the Edson Art Club, the scene stretched 80 feet long, across the wall and the ice surface and was eight feet high.

Superintended by Roy Kibler, lead painter of the Art Club, the scene was painted by Mrs. Barbara Morgan, Mrs. Perry Smith, Mrs. Lora Kay, and Mrs. Kibler.

Start new Pan Am plant at Fox Creek

Construction on Pan American's new \$7 million gas and sulphur processing plant in the Hignote field, 24 miles southeast of Fox Creek is getting ready for a fast start right after spring break.

The prime contractor for the job, Stearns & Rogers, presently has about thirty men working there now, setting up a campsite and getting ready for an estimated 200 men who will be working on the plant this summer during the peak construction period.

So far this winter, Ledcor Construction has built a sixteen-mile road from the plant site to Highway 43, including a bridge across the Little Smoky

river. When completed, the road is expected to have a load bearing capacity comparable to that of Highway 43. At present, Ledcor Construction is crushing and transporting gravel to be used at the site and on the road.

Expected completion date for the plant is January, 1968. It is to be fed by four wells, possibly more, and will produce about 330 tons of sulphur per day as well as 36 million cu ft. of gas per day. Details on how many men the plant will employ when completed or what living accommodations will be provided are not yet available.

Chamber of Commerce Week. . . April 2 - 8

What is a Chamber of Commerce? A group of businessmen devoted to prove that the sun shines all the time in our community. Public spirited citizens banded together to see that the community enjoys the highest possible standard of living. Supporters of free enterprise and our democratic way of life. Businessmen trying to bring new industry and more business to this area? These are some of the most commonly held ideas about the Chamber of Commerce. Whatever is said about the Chamber of Commerce there is one thing sure, it is or should be, one of the most important organizations in the town.

The work of the Chamber of Commerce touches nearly every citizen. In most towns the Chamber of Commerce is responsible for tourist promotion in many others it undertakes the work of an industrial commissioner seeking new industry for the town and district. Usually it takes a leading part in community affairs improving relations between the farmers, truckers and the businessmen, sparking community interest, education, running "get-out-the-vote" campaign at election time, taking a lead in fire prevention and health, sponsoring clean-up and beautification week. The Chamber is instrumental in focusing greater attention on municipal and provincial affairs. It brings about greater understanding among various segments of the community and it makes the community a better place in which to live. Canada has a great future. The Cities and Towns of Canada are going to share this future in proportion to the effort they individually put forth.

Your Chamber of Commerce is an important vehicle for employing this effort.

Edson Chamber of Commerce desires your support.

Lose home by fire

Mr. and Mrs. Walter (Lionel and Leta) were left homeless on Sunday night when fire swept their small house, burning it to the ground.

Members of the three family watched the fire at almost the same time as near by neighbors, Mr. and Mrs. Leta, had to help them escape to safety.

Some personal effects were saved, but clothing belonging to the three members of the family could not be saved as the fire was burning fiercely in the roof of the house.

Mr. and Mrs. Leta and their two children were not injured and were busy the first of the week, looking for a new home to settle in.

Assistance in the way of bedding, household furniture and food, is expected shortly.

The town is said to give a helping hand to the family in the event of an emergency such as this.

Hobo Engineer

(continued from page 9)
the N.W.M.S.

I wandered around looking for Edson Park stationhouse. In this subdivision the plan shows a big rectangular building. There are stakes in all directions, but in my search I got further and further from any sound or sign of city or settlement except for the faint noise of shunting in the distant railway yards.

Tall spruce stand silently around, a few small bushes (bushes) were seen in the distance. Here and there were long, thin, dark, narrow, or black, tapered with his side and driven in his vision.

It was like something from Hans Andersen. But think it, crossing the street, I found get stuck. The sign of the subdivision I am looking for.

Edson will have to do a great deal of developing and expanding before any big can be made out of it.

Edson is the first subdivision built on the N.W.M.S. west of Edmonton. There is talk of the Canadian Northern Railway building a heavy and light of train to leave for the Peace River district, and to the Peace River road bridge.

Large railway yards are being laid out. A big station and round house and shops are under construction. The new building, rounder in shape, for hundreds of miles, and there is a new bridge, bridge and there is a new road and a new road.

Edson is identical in the neighborhood and of good quality. But the industry and agriculture means that Edson cannot count on the assistance from the former district, it's early years of development.

Edson has been laid out on 200 acres west and the railway is steadily forging ahead in the subdivision. Little and small are being driven out of their subdivision by the "true" Edson. The industry and agriculture means that Edson cannot count on the assistance from the former district, it's early years of development.

These three huge cedar logs were donated to the Edson Lions Club for their park project by the Bell Pole Co. at Valmont, B.C., through the company manager, Ron Galt and former Lionsite Nations Club.

Several "best beers" awarded by an age-old American process into one great beer! Its distinctive taste is brewed in with premium barley, rice and hops. Lightly and relaxing Pilsner beer, from the House of Lethbridge.

The bright and lively lager beer is the best House of Lethbridge tradition. A pure, exclusive yeast culture helps make it an unusually smooth brew. And the mellow taste of the finest malt gives Lethbridge its unique character!

"Where's Charley" may come to town in June

The original tree, a young seedling when it was discovered in 1795, outlived both the father and son. John died in 1842, Allen in 1897. The tree, however, about 15 feet high, was not seriously damaged when fire levelled the building in 1893, but the branches on the side furthest from the blaze continued to bear fruit until 1908 when the old and famous tree finally expired.

MURRAY'S *Super* DRUGS

Local firm takes on anything in moving

By Carol Ahl

We were passing Wurthing Transport headquarters on 2nd Avenue recently when we noticed a number of the truck units loaded with huge amphibious trailers. It looked as if a major moving job were underway so we hurried back to The Leader to pick up the camera. We were able to catch some of the action as the men finished loading.

On enquiring of Al Wurthing, owner of Wurthing Transport, we discovered they were in the process of moving some equipment 70 miles south of Grande Prairie. The loads were mammoth and gave an idea of what many people don't realize — the type and amount of equipment — 16 high-boy, lowboys, field bush and heavy trucks that are necessary to operate a trucking business the size of Wurthing Transport.

Seventeen units in all were needed to deliver the seismic equipment.

Talking to Al we discovered that this type of hauling, plus their Edmonton to Edmonton regular transport runs need equipment and men to operate them that was responsible last year for a payroll of over \$100,000. A sizeable local industry — bigger than many people realize.

Some of the units lined up ready to pull out.

Members of the weekly baby-sitting course all had a chance to show their instructors they had absorbed the baby bathing lesson given during last Friday's class.

Jr League meeting this Sunday

Following an annual meeting on April 15th, a further meeting for those interested in the Junior League will be held this Sunday, April 23, at the Town Hall at 10:00 a.m.

It is hoped that a table League (Leagues) Association will be formed at the meeting, and it is the hope that the Junior League will be able to help in its work of raising money for the needy.

The only thing that isn't needed is a lot of help in the form of money. There is need of a lot of help in the form of money. There is need of a lot of help in the form of money.

Blood Donor Clinic here Tues., April 25

The Red Cross Blood Donor Clinic will be held on Tuesday, April 25, at the Town Hall at 10:00 a.m.

The clinic will be held in the Town Hall at 10:00 a.m. The clinic will be held in the Town Hall at 10:00 a.m.

Timber Producers Assn. investigates market

Members of the Evergreen Timber Producers and Dealers Association have moved into the second stage of study concerning the cost price squeeze the farmer-cutter sector of their industry is faced with.

Further study, this time by the association's research committee, will be a study of the cost price squeeze the farmer-cutter sector of their industry is faced with.

The broken windows of the gutted Explosives Ltd. building are reflected in the sloppy street Monday morning following a fire that broke out early in the afternoon Sunday that completely wrecked the building. A stiff north-east wind endangered The Leader building, right next door to it, but firemen were able to contain the fire in the building. Besides the loss of stock and building suffered by Explosives Ltd., Gordon McIntyre, owner of the building, Ray Eitzen, an explosives expert lost over \$1000 worth of clothing and personal belongings which he had stored in the building only the day before. Explosives set up for business in the NABP building and are doing business by Tuesday afternoon.

SAVE A LIFE THIS CENTENNIAL YEAR

Local and district residents are reminded of the Red Cross Blood Donor Clinic scheduled for next Tuesday afternoon and evening, April 25th.

The clinic will be held as usual in the English Hall with the hours from 2 to 4 in the afternoon and 7 to 9 in the evening.

Many groups and associations are pitching in to help the sponsoring group, the Edson Chapter A.D.H.C. make this Centennial Blood Donor Clinic the most successful to date.

Donating blood isn't something that shows. Probably you will never know whose life you have helped to save by your donation. Suffer to see that the blood you donate will help to give someone a renewal of life.

They are setting a big goal — 300 donors for this goal can be reached and passed. How, only the organizing groups can't do the job. Without the previous, life saving blood of at least 300 donors and district residents the goal cannot be reached.

A donation isn't a big thing. It doesn't show it doesn't hurt beyond the prick of needle, you don't receive a medal for it, but for the many who have not donated in the past this helping to save a life could be a wonderful, personal Centennial project.

It is impossible for many people to attend the clinic during the afternoon hours. It is suggested that however, shift workers and anyone possible make an effort to donate in the afternoon so that people on the job during the day can be more easily accommodated during the evening.

It is suggested that businessmen and women, let their employees have an hour off to donate in the afternoon, particularly if Tuesday afternoon are usually short. Then too, businessmen could give up a "blood donor day" and maybe get a non-donating friend to help out by babysitting.

This is the type of goal that can only be reached by individual effort. Unlike a fund drive, one person can give extra to bring the total up. This drive is for a pint space and no one can give it but YOU.

HERE WE GO AGAIN

Premier Manning has ended the suspense. We're on the election track for Tuesday, May 22. Edson Constituency politicians haven't been asleep and three candidates have already been nominated.

The Edson election will be widely noted by trend watchers and we will wonder who they have been talking to when they make a survey of how we're going to vote.

Our guess is that things haven't changed too much since our election two years ago. Bill Switzer has done a quiet, competent job in his role as M.L.A. for Edson. The only complaint we've heard about him is that enough constituents don't get to see much of him. This can be improved by running out of that Bill at once as widely known as you can get.

He was born and raised in Edson and was mayor of Edson before winning in the provincial election. He has been effective in getting things done for his constituents.

Nel Remyer as provincial leader of the New Democrats can be expected to run a competent campaign for the grid he came close to placing in the last election.

As Jorjensen, born in the east end of the constituency and now a school principal in Edson, has been often around and known to many in the area of the Social Credit persuasion. We expect his campaign to be a competent one.

The Conservative haven't decided on whether to run a candidate or not.

Since when was a penny 'small change'?

No small change, your power pennies! They're big in value, comfort and convenience when put to work around the farm. Power pennies are the only pennies that have doubled in value in the past 20 years. Here's what one power penny will do for you

A power penny a day makes home bodies of your cattle.

A power penny runs a milking machine for 10 days.

Niton Players chalk up another big success

A football team, known as the Niton, was organized in April 1962. The team consisted of a number of the city's best players, including: Steve Stroup, Dave Larson, Carl Hare, Harold Carls, and Sam Ray.

Blue, Abner, Billie, and Sam Ray, the team's first coach, has been successful in leading the team to a number of victories. The team's first game was played on April 15, 1962, against the local team, the Blue. The team won the game 14-0.

The team's next game was played on April 22, 1962, against the local team, the Blue. The team won the game 14-0.

The team's third game was played on April 29, 1962, against the local team, the Blue. The team won the game 14-0.

Edson's career of totem poles, Helmut Schmidt, has all but completed carving the three poles which will stand in the children's playground in the Lions Park. Here he puts the finishing touches on the back of a thunderbird, the legendary figure which tops each of the poles. Helmut expects to start painting the figures by the first of next week and will add the wings after the poles have been moved to the park.

A CARPENTER, 37, and 19, 1962, the team's first coach, has been successful in leading the team to a number of victories. The team's first game was played on April 15, 1962, against the local team, the Blue. The team won the game 14-0.

The team's next game was played on April 22, 1962, against the local team, the Blue. The team won the game 14-0.

The supplementary requisition from the Division is to be increased by what is in effect about nine mills. Total of the supplemental requisition will then be nearly 20 mills to Edson township.

This will make the tax bill to Edison citizens for school purposes alone approximately 50 mills. It was pointed out that this is higher than some municipalities pay for their total tax bill. Town services cut to the bone will bring the mill rate to nearly 80 if there is not to be a cutback or a deficit budget.

We're Proud of Bill — Let's Put Him Back!!

Bill Switzer and Mike Macgregor wave from the door of the "Host Macgregor" bus.

Bill Switzer speaks out for Old Age pensioners

Mr. Speaker, I wish to advise you, my friends, that I am a pensioner. I am 65 years of age and I have been a pensioner for 15 years.

My, Speaker, the funds of this House are empty and we are out of money. I am a pensioner and I am 65 years of age.

I think the House ought to have a pension for all of us who are pensioners. I am a pensioner and I am 65 years of age.

I think it is fair to say that the pensioners of this House are the most deserving of the pension. I am a pensioner and I am 65 years of age.

I think it is fair to say that the pensioners of this House are the most deserving of the pension. I am a pensioner and I am 65 years of age.

I think it is fair to say that the pensioners of this House are the most deserving of the pension. I am a pensioner and I am 65 years of age.

I think this would be a reasonable thing to do. I am a pensioner and I am 65 years of age.

I think this would be a reasonable thing to do. I am a pensioner and I am 65 years of age.

We in Edson Communities are proud of one of our native sons who has offered his abilities to his country, his province and town of Edson. He is a young man who is a member of the Jasper community.

In our Bill Switzer served with distinction and courage. Following his university years when he obtained his degree in pharmacy to follow his father's profession in Edson and later at Hinton Bill has shown a political awareness and a deep sense of responsibility.

Prior to his going to Hinton he served on the Edson Town Council. His experience in municipal affairs made him a natural choice as the first mayor of the newly re-incorporated town of Hinton when the pulp mill began operations.

Now following his term in the Alberta Legislature and representing his constituents with an overall sense of responsibility, Bill is a logical choice for this area.

The qualities that he has in quantity are urgently needed in the governing of our Alberta.

Bill is Working For:

- ☆ **EQUAL OPPORTUNITY** for the rural student in education
- ☆ **A MORE INTENSIFIED PROGRAM** for industrial development.
- ☆ **PREVENTATIVE WELFARE** — We must provide programs to enable people to help themselves to a better standard of living.
- ☆ **PROTECTION** against welfare abuse.
- ☆ **OLD AGE PENSIONERS** and those on fixed incomes to be exempted from property taxation for the purpose of education.
- ☆ **LOWER PROPERTY TAXES** for the homeowner with the provincial government bearing a greater share of education costs.
- ☆ **A BROADER APPROACH** to the problems of mental health and psychosis.
- ☆ **ESTABLISHMENT** of a department of Northern Development.
- ☆ **CO-ORDINATION** of Federal and Provincial Parks policies.
- ☆ **TRANSLATING A.R.D.** into concrete action.

A steel worker was enthusiastically waving the brass flag above the street on a new highway building while the young men, however, made a nerve-jangling racket and the newspaper ladies' about the whole structure. When he came down to ground level, a speaker up propped him. "I was amazed at your courage up there," he yelled to the steelworker. "How did you happen to get a job like that?" "Well, the steel worker yelled back, "I used to drive a school bus until my nerves gave out."

Switzer Blasts Sacred Budget

Government Financing Called Irresponsible, Empire Building

EDMONTON — The provincial government's budget racked violently in the Legislature Wednesday amid a tidal of charges that labeled it as irresponsible, exploitation and empire building.

Speaking in the budget debate W. A. Switzer (L. Edmon.) called for a balanced budget and one which would also reserve in capital purposes the government's income from the exploitation of non-renewable resources such as oil and gas.

He said he finds it difficult to accept the necessity of debt finance on an Alberta, and believes it is wrong to use money to buy resources for the province's future. It should be treated as capital and reserved for the benefit of future generations of the province he declared.

Warns Against Resource Usage

By using these resource reserves as current income, Mr. Switzer said, the province is "only paying off the day when — taxpayers of the province will have to assume a load of all proportion, by comparison with the rest of Canada."

The budget presented by Provincial Treasurer A. O. Adair, he said, was "a statement of the government's lack of vision."

It reflects fiscal irresponsibility, Mr. Switzer said, in that the government is budgeting for a deficit and thus the public by saving its problems for the future and increasing demands on the public for increased and additional services.

"I do not accept this. It is the responsibility of every minister to ensure that he presents it within the revenue expected."

Empire building, he went on, is not consistent with sound fiscal policy.

Health Department Mentioned

Mr. Switzer did not specify which minister, if any, were guilty of empire building, but later in his speech he stressed his goals on the public health department in no other context.

He said the question and comments he hears most frequently in his constituency and elsewhere in the province center on the health department.

He said the last Mr. Switzer said, is the question "Why is the administration so distant and unresponsive?"

Comment very he said, is that the government is so busy with the present part of the daily change itself in a well-defined perspective, when it is considered, that the requirement is unacknowledged in view of the federal-provincial agreement covering hospital care.

What goes on in his view is a system that the nursing home program is not adequate to the needs of the province coupled with a feeling that no one should be allowed to make a profit from old people.

Moving Towards Alignment

Finally, he said, there is a widely held view that needs to be made, the doctors are required to it, and that the very nature of the health department is to be a part of the government's responsibility to the people.

He said he is a member of the Bill Switzer campaign, and is a member of the Bill Switzer campaign.

Around the World

Italy, with her and potatoes, may be run based duty free. By some small, potatoes, but no other fat and in our hands.

A large open market in Rome was interesting. Every time imaginable — baskets, wine, herbs, women's clothes, jewelry, wood carvings, all passed through, most of it for sale, and all at a bargain price. I saw it all at the market. Some of the Italian men have shops that stand on the street in order to sell a choice of goods for Saturday morning. The stores close on Saturday at 10:30 p.m., so before the shops are closed.

We stopped a boat en route to a small island where we had a picnic. The boat could be seen today, we had a picnic on the boat, and a picnic on the boat. The boat had a picnic on the boat, and a picnic on the boat. The boat had a picnic on the boat, and a picnic on the boat.

The people in Italy were very friendly and helpful, and we were very to find that we had a picnic on the boat, and a picnic on the boat. The boat had a picnic on the boat, and a picnic on the boat.

The Italian natives live in a beautiful area that has been developed by the Italian people. The Italian people live in a beautiful area that has been developed by the Italian people. The Italian people live in a beautiful area that has been developed by the Italian people.

Along the coastline, natives will barter and exchange in Italian, even from their homes.

London is an outstanding example of a good source of money to the country. There are many daily shops where you can buy as much as you like.

Elephant Brand Granules (45-0-0) (Urea)

Elephant Brand Granules (45-0-0) (Urea) is the modern fertilizer for profit-conscious farmers. Elephant Brand Granules make Elephant Brand high-nitrogen fertilizer better than any other on the market. Elephant Brand granules are harder — they don't cake or break up to dust — but they do dissolve readily in your soil. Elephant Brand granules are denser so you get more plant food in every application — make fewer applications. You save time and labor — and that means money. Contact L&L Company, Alberta.

To represent Edson team drivers

Miss Emma Marie Kauranen will represent Edson High school and the Edson drivers at the provincial teenage safety driving championship contest in Taber, Alberta on May 27.

Miss Kauranen has been taking the high school driver training course as an extra credit in her class. She will join 14 other high school drivers from other high schools in Taber to compete for the championship.

At the time of the provincial championship, drivers will be competing in a variety of events aimed at demonstrating driving safety and education. They will compete in written tests, skill tests and road tests.

Following the provincial championship, Alberta's winners will travel to the national championship in Chicago next year.

An Open Letter to the People of Alberta

For the past several years, I have stressed the need for developing a new understanding and unity among constructive, freedom-loving people and parties in Canadian politics. This need exists right here in Alberta, where the task of fully developing our total human and physical resources is so immense and so challenging that we cannot afford to dissipate the energies and contributions of constructive freedom-loving people by needlessly opposing one another.

In Alberta, the efforts of a constructive, free-enterprise Government have invariably met with vicious opposition from negative thinkers, collectivists, and socialists. As long as there is a negative side to be taken, such opposition will always exist. It is, consequently, both unnecessary and unwise for constructive people capable of positive agreement to disagree merely for the purpose of providing "opposition" one to another.

This letter is a frank and open invitation to all positive-minded citizens in Alberta, who share these views, to become personally acquainted with the operations and policies of

your present Government, and to join your fellow citizens in supporting Government Social Credit candidates in the forthcoming general election. Your Government desires and welcomes the ideas not only of those who have faithfully supported Social Credit in the past, but also of progressive conservatives and liberals who find themselves in fundamental agreement with the basic principles and advanced policies outlined in the Government's recently published White Paper.

On May 23rd it is my earnest hope that there will be a new expression of political unity and purpose in Alberta on the part of all constructive, freedom-loving people. You can make such an expression possible by giving your full and active support to Government Social Credit candidates.

Very sincerely yours,
Frank Manning
R. C. Manning,
Premier of Alberta.

MR. AND MRS. J. BLAKE MCNAMARA

A lively wedding was celebrated at Mr. Edgar's cathedral, in Wimpole, Middlesex, on Saturday, April 22nd, at 2:30 p.m., when Missy Ann, eldest daughter of Mr. and Mrs. Edgar, was united in holy matrimony to Mr. John P. Karmata of Boston. The bride was escorted down the aisle by her brother, John P. Karmata of Boston. A floral train was borne by the bridesmaids, Misses Mary and Elizabeth Karmata. The bride wore a gown of white tulle and lace, and carried a bouquet of white flowers. The groom wore a tuxedo and carried a sword. The ceremony was performed by the Rev. Mr. Edgar. The wedding reception was held at the home of the bride's parents. The bride and groom were accompanied by their families and friends. The wedding was a most successful and enjoyable occasion.

Hundreds Work to Re-Elect Switzer

BILL SWITZER SIGNS his nomination papers while friends and supporters look on with enthusiasm. Bill has been fortunate to have had so many volunteers workers speak up for him in his campaign for re-election in Edgmoor Constituency.

One of the nicer things about pioneering is the kind of thing that happened when Ben Hayter, a well known newsman at Edmonton, came out to settle without being asked and gave

First of all, I want to say, I am very happy to be here, and I am very glad to be able to be here in Washington.

On behalf of my good friend Bill, I didn't say that he's an old friend because on the text from the text was mostly about his behavior, and I was, however, sure that some- one had captured his admiration and confidence, and I'd like to tell a number of ways to help you why.

I have always believed that a member's top responsibility is to the people who elect him. He has to be their spokesman, the sounding board and, in fact, the father confessor.

A good MIA, in my opinion, is a working MIA... one who does something worthwhile for his constituency.

We've got to get back the old-time concept where a member places his people

We have too many people in politics today who are only interested in satisfying their own personal ambitions. All the talk, all the promises and backslapping are for-

interest has always been in the fact that the complete response pattern, not only the mean, but also the shape of the distribution, is affected by the treatment. In this sense, the relationship between the two variables is non-linear. It is important to note that the non-linearity is not in the response variable, but in the relationship between the two variables.

Switzer's Views On Labor

By Ron Hester
EDMONTON — Alberta's Social Credit Government was accused of being anti-labor in a hard-hitting speech by John R. Hill Switzer, shortly before the Legislature prorogued last week.

"It's very seldom we hear in this Legislature of the problems and difficulties confronting the ordinary laborer and wage-earner," he said.

Mr. Switzer said the government — in the speech from the Throne — implied that labor was primarily responsible for recent price increases.

"The government is wrong in siding with industry or with management, if you wish, in placing the blame for our recent inflation at the feet of labor because of wage increases it has received," he declared.

The simple truth is that wage increases are not solely to blame for this situation. We must also look at the other side of the coin — the desire for higher profits by employers and the effect of heavy demand on prices.

"If the demand for goods rises quicker than the physical ability of industry to produce the goods, then prices rise. This is in no way connected to labor."

"If there are two people who want to buy a car, and there are 10 cars available, the price each person pays for his car will be quite a lot less than if there were 20 people who wanted to buy the 10 cars."

Mr. Switzer contended that labor often is used as a "whipping boy" by business and industry to justify increases in the prices of their products and services.

"It's an interesting fact that since all industries made record profits last year, and they should have been able to afford wage increases for their employees without jacking up prices. It's not expected to anyone making a profit — the profit motive is the foundation of our free enterprise system — but it should be justified fairly and equitably."

He pointed out other examples in the labor relations field to show that the government, in his opinion, is "not very conscious of the fact that the men and women in Alberta's labor force are faced with very real problems."

He called for a study of all legislation now affecting labor to eliminate all oppressive sections and statutes, "the time the wage-earner got a break," the MLA said.

The Edson member praised the concept of the government's White Paper on Human Resources. "It is grand in its design and ambitious in its detail," he said, "but it means nothing until it is translated into concrete action."

He quoted an old expression: "Talk is cheap, but it takes money to buy a good crew."

Mr. Switzer wondered about some aspects of the White Paper. "If the government establishes all the goals and committees, it will be no use," he observed, "we could be in danger of developing into a bureaucracy instead of a collection of interesting statistics which very often turn out to be useless."

"The government would, in effect, become a Parliament's Dream."

Springtime is Sheep Deworming Time

W. S. J. Switzer, executive supervisor with the Alberta Animal Industry Service, strongly advises sheep owners to deworm their flock in the early spring.

"It's very important to deworm your flock in the early spring," he said. "If you don't, you'll be in for a lot of trouble."

Switzer said that the deworming process is a simple one, and that it can be done by the owner or by a veterinarian.

Chamber to hear ski resort report

EDMONTON, May 22 (UPI) — The Alberta Chamber of Commerce will hear a report on the ski resort industry in the province today.

The report will be presented by the Alberta Ski Resort Association, which was formed last year to promote the development of ski resorts in the province.

The association's president, J. R. Switzer, said that the ski resort industry in Alberta is still in its infancy, but that it has great potential.

John Tabor recently retired from employment with the CNR April 28 after 41 years service on the rail of way. Honoring him on his retirement were employees of the CN from over a wide area. Shown are Ted Frenkel, Arthur Tabor (center) and John MacKinnon. The above was a gift from his fellow employees. He also received a set of CN cuff links and a tie clip, handmade with a letter of thanks from Vice-President Mr. Graham. Mr. Tabor commenced employment with the CN at Dalhousie, west of Edmonton in 1926. He is a native of Saskatchewan. He was married on August 19th, 1937. He has worked steadily in Winnipeg since 1960.

MANY NEVER SUSPECT CAUSE OF BACKACHES

Many people who suffer from backaches do not realize that the cause of their pain may be something as simple as poor posture. Poor posture can lead to muscle strain and backaches. It is important to maintain good posture to avoid these problems.

'THE TWO BEST BEERS IN THE HOUSE!'

Lethbridge Pilsner

Many people like the crisp taste of our own home-brewed Lethbridge Pilsner - a blend of several fine brews in the best Canadian tradition. The brewmaster adds just the right amount of whole grain, pearl rice to give a subtle "bite" - the choice barley, Lethbridge Pilsner, truly satisfying beer!

Lethbridge Lager

Many prefer the mellow taste of the malt in Lethbridge Lager. Here's a naturally aged, smooth Lager brewed with a special yeast culture. Then mix it with our extra refreshing Lethbridge Lager. Bright, throat-quenching Lager beer at its best... that's Lethbridge!

Two great brews from
SICKE LETHBRIDGE BREWERY LTD.

Canada's Chartered Banks Changing Approach

Desert of a speech by S. T. Fries, president of The Canadian Bankers' Association.

Montreal, June 7.—The Canadian Bankers' Association (CBA) today announced that its members, the chartered banks, are changing their approach to business.

The CBA's new approach is based on the principle of "customer service." The banks are now focusing on providing better service to their customers.

Additional tributes

In 1960, my husband and I purchased a home in the town of Bluebonnet, Texas. It was a small, one-story house with a front porch. The house was in good condition, but it was not the home we wanted. We wanted a home that was modern, comfortable, and had a lot of space. We wanted a home that was a new home.

After a long search, we found a home that was just what we needed. It was a two-story house with a large front porch, a finished basement, and a lot of space. It was a home that was a new home.

Subsidized Health Coverage For Less Than PER DAY

You can provide yourself and your family with complete health protection including Medical, Surgical, Obstetrical Services, Special Dental Surgery, Optometric Services and Podiatric and Osteopathic Services for less than 5 cents a day, if you are eligible for a maximum subsidy.

For an added 10 cents a day subsidized persons can obtain all three options including Hospital and Ambulance Services — Drugs and Prosthetic Appliances and Chiropractic and Naturopathic Treatments. Non-subsidized families receive the same protection for very reasonable rates. With higher subsidies and lower rates the ALBERTA HEALTH PLAN is tailored to your income.

Get the facts and figures today — you may be eligible for a generous subsidy.

Centennial Report

1987 1988

by JOHN W. FISHER
CENTENNIAL COMMISSIONER

It's all true that publishers and advertising copy writers for a long time have been saying that Expo '87 is the greatest show on earth.

You would think that some of us who in the past few years, have been close to L'Espresso planning and preparations would have been a bit blasé on opening day. It turned out that despite all *your* advance knowledge and familiarity with L'Espresso's greatest biennial event of all, we were as spellbound as a *poor* farm boy visiting L'Espresso.

48 All my kadenes, cups, imper-
sons of kapa there is one which
comes blazing above them all. It
is the impression that here, among
the glowing land and the com-
pulsive nationalism, pride of 62
countries, is the great cooperative
spirit of mankind.

The 135 planners who adopted the plan and the World theme and the sub-themes which also underline the hopeful spirit of our world can take much credit. However the participating nations have so responded to the theme that the moral and the spirit of 1954

almost a daily commitment, as the message that man's hope is above all nations. It is, almost, for the moment, a whole, a whole, over the waters of the St. Lawrence on a common. It is the link between the people, the people, the people of the United States and the United States, the people, the people, the people.

As a Canadian, naturally I am pleased that this great international gathering is taking place in my country. Not much more significant to me is that the message of hope and the positive spirit of man reawakening from the long islands are so in harmony with all that is symbolized by our

When we think about the past 100 years of our Confederation and consider the best ways of improving it for Canadians in every ethnic origin cultural and linguistic background, we can be

clinging the kind of spirit that not only feeds birds but also the whole world needs. And when we think well and long we come to the realization that indeed, in the 70th century, we live in only one community: the great community of all.

Retail merchant request Friday night shopping

A petition signed by a majority of the proprietors of shops subject to the early closing by-law, other than barber shops and beauty parlours, asked Council at their regular meeting on Tuesday, June 13, to have the by-law amended to provide for Friday night shopping instead of Thursday.

Upon approval shops and stores would then be open Monday, Tuesday, Thursday and Saturday until six p.m. and would close at 10:30 p.m. on Wednesdays. The intention of the Town is to change the by-law from Friday night shopping to a waiting period.

The Department of Transport has confirmed that the Federal Transport Board will enter into an agreement with the Town wherein financial assistance to the extent of \$10,000 would be provided to the Town toward the improvement and extension of the Edson Airport. The agreement is being prepared for execution.

Mr. G. G. Galt, Chairman of the Edson Community Council, in support of the application of the Council to the Town Council, stated that the Council is in favour of the amendment to the by-law. He stated that the Council is in favour of the amendment to the by-law. He stated that the Council is in favour of the amendment to the by-law.

A study conducted "aimed at identifying the role played by a port town in the dairy, Alberta, to provide direct connection not only to residents of the area, National Health and Welfare Minister Allan Rock, but also to the general public," says the study.

The Fall of the Alabama Gai Times' times held a luncheon party for 2 families who are leaving the end of the month.

This took the form of a family picnic in a blossom park and the Phoebe Willis and Jimmy Tucker families were the honored guests.

In this Centennial Year we are happy to bring to our readers these excerpts from the diary of E. N. Copping while he worked as a roadman during construction of the railroad through this area. The diary will be continued week by week until we arrive with Mr. Copping at Maple Creek just west of Hinton.

Cash Prizes for Bazaar of Values Customers

A Golden Opportunity is being offered Edson and district residents for the next week's draw to 25 local merchants who are participating in the "Bazaar of Values".

In addition to the quality merchandise at prices you'll hardly believe, customers will also have the opportunity to win a series of cash prizes.

During the eight week campaign there will be a total of \$1000 given away in cash prizes to lucky customers purchasing items from any of the "Bazaar of Values" merchants.

In the first four weeks there will be a \$10 weekly prize, \$30 for the next three weeks and the eighth and final week will be highlighted by a grand prize of \$100.

The procedure for participating in the weekly prizes, including the final week's grand prize contest is simple. All a customer has to do is fill in his or her name, address and telephone number on any sales slip, check slip or other proof of purchase from any of the merchants offering "Bazaar of Values" savings.

These slips should either be mailed in to The Edson Leader or dropped in to The Leader office. They will be placed in a special "Bazaar of Values" box located in The Leader office.

Each week a lucky winner will be drawn from the box and upon answering a simple skill testing question, the prize will be presented by the merchant at whose shop the entry is written. A picture will also be taken of the

lucky winner and published in the next issue of The Leader.

The slips from each week's draw including that of the lucky weekly winners will be placed in the Grand Prize box also to be displayed in The Leader office for the \$100 draw which closes the campaign. These slips must be sent in, or dropped in each week in participate in each week's draw though all entries will have the opportunity of winning the \$100 grand prize.

The Leader and participating merchants in Edson hope that this will add excitement in addition to the many specials to be advertised by the merchants, who are participating in the "Bazaar of Values".

Edson Chamber appeals for off Main parking

President Ian Mackenzie of the Edson Chamber of Commerce has issued a request for all business, service, and other places to ask the city council to park their cars and vans off Main Street.

Mr. Mackenzie said that with the summer season of increased motor vehicles, the space for cars on Main Street is limited.

At any rate, a year or more, if no arrangement is made to provide parking for these vehicles and other vehicles.

Edson Baptist Church sponsors Bible Institute

A group of young people from Edson and other communities, under the leadership of Mr. Adams, will sponsor an evening of Bible study and music at Edson Baptist Church, Sunday, June 25, at 7:30 p.m.

The Bible Institute is to start at 7:30 p.m., followed by a social hour. Mr. Adams, after giving the invocation, will read the opening prayer. The Bible Institute is a series of Bible studies, covering the entire Bible, and is held at the Edson Baptist Church, 1000 Main Street, Edson, Alberta.

What are you out to prove?

An open letter to the vandals who again broke up things at Wilmore Park.

Last Friday Town crews fixed the broken windows, cleaned up the broken bottles, repaired the picnic tables, gathered up the chips from the old ones and so on.

On Monday it was discovered that the windows in the shelter were again broken. The frames, chopped up and burnt for firewood. The tables broken up and burnt. And cut wood for the firewood.

There were empty beer bottles lying around as if it would seem that the culprits are beer drinking ruffians in their late teens or early twenties.

We also presume those responsible for the vandalism are from Edson. Need we remind you that your parents are already paying heavily in taxes on their houses. When Town crews work on breaking the park these your parents are paying for it every time you bust the stuff up.

More frequent patrols are being arranged to the Park.

Cash Prizes for Bazaar of Values Customers

A Golden Opportunity is being offered Edson and district residents for the next four weeks to win a \$100 prize by participating in the "Bazaar of Values".

In addition to the quality merchandise on display, you will have the opportunity to win a series of cash prizes.

During the four week campaign there will be a total of \$2000 given away in cash prizes to lucky customers purchasing items from any of the "Bazaar of Values" merchants.

In the first four weeks there will be a \$10 weekly prize, \$20 for the next three weeks and the eighth and final week will be highlighted by a grand prize of \$100.

The procedure for participating in the weekly prizes is simple. The first week, a random drawing will be held on a Saturday from 10:00 a.m. to 5:00 p.m. at the Edson Leader office. The drawing will be held on a Saturday from 10:00 a.m. to 5:00 p.m. at the Edson Leader office.

These prizes should only be claimed in the Edson Leader office, or district office in the case of the weekly prizes. The prizes will be awarded by the merchant on whose slip the entry is written. A notice will also be taken of the

lucky winner and published in the next issue of The Leader.

The slip from each week's draw indicating that of the lucky winners, winners, will be placed in the Grand Prize box also to be displayed in the Leader office for the four week campaign. These slips must be sent in or dropped in each week to participate in each week's draw. Though all entries will have the opportunity of winning the \$100 grand prize.

The Leader and participating merchants in Edson hope that this will add excitement to additional to the many specials to be advertised by the merchants, who are participating in the "Bazaar of Values".

It is felt by both the Edison Town Council and the Edison School Division that the delegation to the Minister of Education and the Alberta Cabinet scheduled for June 20th would be better postponed until more statistics are gathered.

Calgary, for example, is making a great deal about a supplemental requisition of one mill. Lac Ste Anne County's is 1½ mills and Stony Plain's two mills. Edson School Division's supplemental requisition is one 12 mills.

If this is the pattern over the Province it is felt, then obviously Nelson School Division is in a special position and the Foundation Program is pertinent to its needs. Considerable modification

Centennial Report

Paul Hartman sensed the early morning sky and climbed into the cockpit of the Superjet 1. He hooked up at the Ackerly gun bay on the top wing and gave the gun his own name. With an initial burst of intense smoke and an angry snarl his rotary engine burst into life. Hartman pushed the throttle forward and in the space of a few yards passed the ground crew, the Superjet sprang onto the

sounds like the opening act of a circus. Would it be flying monkeys? But it isn't! Paul Hartman, vice commander in the RI AF and the dropzone last year, says, "It's a Black Red Bull! Aspects the pack of the Hartman and several other very tall pilots of the RI AF have been circulating low, colorful and noisy. Black Red Bull on 10 to mark the 10th anniversary of the Canadians arriving in Canada. The 10th is too long and just one more of the sort of exciting events in 1980 that we're going to remember. It's a Black Red Bull, a 10th anniversary, remarkable thing."

The second Saturday in June usually is set aside for Armed Forces Day. Since the late '80s (the 50th anniversary of military flight) the annual Armed Forces Day at Offutt is something special. If you are travelling through or anywhere near the National Capital Area that day, be sure to see the show at Rockwell.

There will be two hours of flight by vintage airplanes (which

Cash Prizes for Bazaar of Values Customers

A Golden Opportunity is being offered Edson and district residents for the next week (this summer) by 21 local merchants who are participating in the "Bazaar of Values".

In addition to the quality merchandise at prices you'll hardly believe, customers will also have the opportunity to win a series of cash prizes.

During the next week customers there will be a total of \$20000 given away in cash prizes to lucky customers purchasing items from any of the "Bazaar of Values" merchants.

In the first four weeks there will be a \$10 weekly prize, \$20 for the next three weeks and the eighth and final week will be highlighted by a grand prize of \$100.

The procedure for participating in the weekly prize, including the final week's grand prize contest, is simple. All customers have to do is fill in his or her name, address and telephone number on any sales slip, charge slip or other proof of purchase from any of the merchants offering "Bazaar of Values" values.

These slips should either be mailed in to The Edson Leader or dropped in to The Leader office. They will be played in a special "Bazaar of Values" box located in The Leader office.

Each week a lucky winner will be drawn from the box and, upon answering a simple skill-testing question, the prize will be presented by the merchant on whose slip the entry is written. A picture will also be taken of the

lucky winner and published in the next issue of The Leader.

The slips from each week's draw, including that of the lucky weekly winner, will be placed in the Grand Prize box. This box is to be displayed in The Leader office for the 100th draw, January, the year 2000. Then, one must be sent in or dropped in each week to participate in each week's draw. Those all entries will have the opportunity of winning the \$100 grand prize.

The Leader and participating merchants in Edson hope that this week's draw, in addition to the many prizes to be awarded to the merchants, who are participating in the "Bazaar of Values".

IT'S LIKE THE LADY SAID "DON'T IT A GARDEN FEELING, BE AMONG PEOPLE YOU KNOW AND TRUST"

This was overheard when an Edson Area customer returned after a big city shopping trip, where she meant and the "don't it a garden" attitude of the big city city.

Recognition, friendship and trust are basic needs, and you'll find all these attributes in the Edson Area. You can shop with confidence with friends, and you'll find the "don't it a garden" attitude of the big city city.

WHAT DOES THE EDSON AREA HAVE TO OFFER?

Customer shopping facilities, available to large trade areas, and manned by courteous, efficient sales people.

ADDITIONAL: Trucks, new and good of all makes and models, for business or pleasure.

I can give you premium or
regular grade gas for farm
use — at farm gas prices.

The White Rose farm gasoline I sell are
exactly the same as the ones you put in your
car. Two slight differences. A dye is added
to mark them for farm use, and they don't
cost as much.

Both White Rose ultra and White Rose
regular are marked. Both have special ingredi-
ents that boost mileage and power. Both give
maximum dependability and longest spark plug
life.

If I also have a special No. 2 tractor gas. It's
for older machines that don't need extra oil
tune.

Farm gasolines are just a few of the many
good White Rose products in my stock. Come

NATURE'S SCRAPBOOK

BETWEEN TWO WHEELS
A shore is more than a line on a map where land meets water. Weatling meets water, whether it is the edge of a beach, river, lake, or pond, a shore is a long, narrow world of its own, unique and distinct from the broad land mass and the sheet of water nearby.

Along this line many life and things, both plant and animal, crowd on and lead a life of their own. Part taste on land and part taste on water. They form a community that is always active, a happy but strong group of few birds, animals and small things.

FLORAL AND FRUITING HABITS
 studied, and the structure of
 the world of flowers and
 fruits up to the largest
 plant families with nearly
 20,000 known kinds. They
 include some of the most
 beautiful and highly prized
 flowers known to man.

The next book of two
 volumes contains spec-
 ialized the various of common
 plants. Most kinds are found
 in the tropics where many
 grow like our plants on the
 fringes of forest.

However, all our native species grow distinctly from the ground, projecting as dead stems in an erect, upright or upturned "bottle" shape, with the principal part usually, standing horizontally and attaching to the main stem at some distance from the ground.

Cash Prizes for Bazaar of Values Customers

A Golden Opportunity is being offered Edson and district residents for the eight weeks this summer by 21 local merchants who are participating in the "Bazaar of Values".

In addition to the quality merchandise at prices you'll hardly believe, customers will also have the opportunity to win a series of cash prizes.

During the eight week campaign there will be a total of \$200.00 given away in cash prizes to lucky customers purchasing items from any of the "Bazaar of Values" merchants.

In the first four weeks there will be a \$50 weekly prize. For the next three weeks and the eighth and final week will be highlighted by a grand prize of \$100.

The procedure for participating in the weekly prizes, including the final week's grand prize contest, is simple. All a customer has to do is fill in his, or her, name, address and telephone number on any sales slip, charge slip or other proof of purchase from any of the merchants offering "Bazaar of Values" savings.

Three slips, should either be mailed in to The Edson Leader or dropped in to The Leader office. They will be placed in a special "Bazaar of Values" box located in The Leader office.

Each week a lucky winner will be drawn from the box and upon answering a simple, skill testing question, the prize will be presented by the merchant on whose slip the entry is written. A winner will also be taken of the

lucky winner and published in the next issue of The Leader.

The slips from each week's draw, including that of the lucky weekly winners will be placed in the Grand Prize box, also to be dropped in to The Leader office for the \$100 draw which climaxes the program. Thus, slips from each week's draw through all entries will have the opportunity of winning the \$100 grand prize.

The Leader and participating merchants in Edson hope that the fun and excitement in addition to the money available to be awarded by the merchants, who are participating in the "Bazaar of Values".

IT'S LIKE THE LADY SAID
"SENT IT A GLOOMY FEELING, TO BE AMONG
PEOPLE YOU KNOW AND TRUST"

This was overheard when an Edson Area customer returned after a hot city shopping trip, where she encountered the hassle and the "don't care" attitude of the big city clerk.

Recognition, fellowship, and trust are basic needs, and you'll find all these attributes in the Edson Area. You can shop with confidence, with friends and worth hours to help you find exactly what you need at the price you want to pay.

WHAT DOES THE EDSON AREA HAVE TO OFFER?

Convenient shopping facilities accessible to larger trade areas and serviced by courteous, efficient sales people.

ATMOSPHERE. Trust, fun and good, of all makes and models, for business or pleasure.

PRIDE. STORIES and pharmacies well stocked to safeguard and maintain your family's health.

FURNITURE. STUFFS, INTERIOR DECORATIONS, who are capable of doing every householder's task.

HAIRDRESSERS. STYLERS with their millions of dimes, and with qualified personnel to aid you in household problems.

INSURANCE. AGENTS to provide you with protection and security.

READY-TO-WEAR. SHOPS featuring quality clothing in dress, suit, women and children for any and every occasion in the latest, stylish current apparel.

REALTORS, who will provide you with home or business property.

SERVICE STATIONS. Distributing the finest gasoline and petroleum products and manned by skilled mechanics and talented operators.

SHOE STORES that feature a wide stylish variety of quality footwear.

SAVING MARKETS and VARIETY STORES stocked with goods that will satisfy any gourmet, and fit any budget, with delightful variety.

TIRE STORES and SHOPS, featuring the World's most famous and reliable brand names, and offering services on re-treaded, used or new tires.

PIZZA DEALERS who have the finest service and give reliable attention to the best of water heating problems, air conditioning repair or installation.

Adventure in Citizenship

The celebration of Canada's Centennial means different things to different people. But to 250,000 high school students from across the nation is means an adventure in Citizenship. The Adventure, a project of the Ontario History Club, brings together students from every province and the Northwest Territories during the week of May 14-19, discussing their National Capital and learning about other parts of Canada from their fellow students.

Cheryl Peterson, 17, of Longville is one of the Adventure and is sponsored by the Dawson Valley Senior Club. She is a student at Frank Macdonald High School. Cheryl was chosen as a Scholar in the Young Canada contest at school. The Scholar then spoke, on the same subject, at a regular monthly meeting of the Senior Club. Cheryl was selected the winner by a panel of three judges. The history of this project may well take on "what comes next" and take on "what comes next."

This 17th annual Adventure holds special significance because it is held during the celebration of Canada's 100th birthday. Many and much of the program reflects this fact. The students will have an opportunity to witness the Grand and Light spectacular scheduled for Parliament Hill and will also spend time in the National Museum.

Among the speakers who will address the students are: Mr. John Turner, Minister of the Environment; Mr. J. G. Macdonald, Minister of the Environment; and his worthy Mayor, Mr. John Turner.

Fire Permits Required

A warning was issued today by S.S. Hughes, administrator of the Forest Protection, A Forest Protection, to all farmers, ranchers and settlers on land located within the boundaries of the Forest Protection, to all farmers, ranchers and settlers on land located within the boundaries of the Forest Protection, to all farmers, ranchers and settlers on land located within the boundaries of the Forest Protection.

The burning of brush must comply to regulations and must be kept in view under control at all times. Permits may be obtained at the nearest municipal or regional office.

Centennial Trees Leaving Oliver Nursery

During the next few weeks, well over 100,000 trees will be shipped to all parts of the province by the Alberta Department of Agriculture's new nursery at Oliver for centennial tree planting projects.

F. D. McCalla, supervisor of the nursery, reports that more than 200 applications for individual tree planting programs were received and approved by his department in the past week. The number of orders placed for the nursery were for individual tree planting programs, which were for 4-11 trees planting programs, and the remainder were for individual tree planting programs, which were for 4-11 trees planting programs, and the remainder were for individual tree planting programs, which were for 4-11 trees planting programs.

It is noted a high rate of survival among the individual trees planted in the individual tree planting programs, which were for 4-11 trees planting programs, and the remainder were for individual tree planting programs, which were for 4-11 trees planting programs.

Field of Ottawa. The students will also be invited to participate in the official opening of the University of Ottawa's new building, which will be held by the University of Ottawa's new building, which will be held by the University of Ottawa's new building, which will be held by the University of Ottawa's new building.

Among other points of interest on the Adventure will visit to Ottawa and the Parliament Buildings, Public Archives, National Museum, National Library and the National Archives. The students will also visit the National Capital Commission and the National Capital Commission.

Finally, the students will be invited to participate in the official opening of the University of Ottawa's new building, which will be held by the University of Ottawa's new building, which will be held by the University of Ottawa's new building.

The procedure for participating in the weekly prizes, including the final week's grand prize contest, is simple. All a customer has to do is fill in his, or her, name, address and telephone number on any sales slip, change slip or other proof of purchase from any of the merchants offering "Bazaar of Values" savings.

These slips should either be mailed in to The Edson Leader or dropped in to The Leader office. They will be placed in a special "Bazaar of Values" box located in The Leader office.

Each week, a lucky winner will be drawn from the box and, upon answering a simple, stimulating question, the prize will be presented by the merchant on whose slip the entry is written. A notice will also be taken of the

lucky winner and published in the next issue of The Leader.

The slips from each week's draw, including that of the lucky weekly winners, will be placed in the Grand Prize box, also to be included in The Leader office for the \$100 draw which closes the program. These slips must be sent in, or dropped in each week, to participate in each week's draw though all entries will have the opportunity to win the final grand prize.

The Leader and participating merchants in Edson hope that this will add entertainment in addition to the money savings to be obtained by the merchants, who are participating in the "Bazaar of Values".

Pole takes 2nd life

Edmonton residents who have seen the driver of a car crash into a pole when it crashed into a power pole. The car was a 1964 Ford Mustang, and the driver was a 21-year-old man named J. Stakich. The car was traveling south on 124th Street when it crashed into the pole. The driver was not injured.

Stakich was taken to the hospital where he was treated for minor injuries. The car was towed away and is being investigated by the police. The pole was found to be in good condition and was not the cause of the accident.

What's the best beer in the house?

How do you make a choice here? Well, Lethbridge Lager is the bold, brassy brew. Lethbridge Pilsener the traditional beer, naturally aged in the good old-fashioned way. Both are quality brewed, so it's a matter of individual taste. As you can see, both the beers speak for themselves.

The two best beers in the house!

Big Changes Ahead For Family Farms

(From G. A. Smith)
By WALLY HADLEY

There are some people who think that family farms are on the verge of disappearing. In fact, they are not. They are still here, and they are still important. They are the backbone of the Canadian economy.

The relative importance of agriculture, however, has declined. Economists report that it will play an even less significant role in Canada's future, and that our prosperity will be more and more dependent on manufacturing, especially on heavy manufacturing, of products suitable for export and sale in the markets of the world.

However, agriculture does still contribute considerably to national income, and is still dramatically illustrated by the millions of dollars in the sale of wheat to Russia and China. These sales did more than just cash in the pockets of private farmers.

They stimulated the whole economy. They provided the raw materials for many farm machinery manufacturers. They provided the raw materials for many farm machinery manufacturers.

But perhaps the even more significant consequence of the wheat sales was the boost to a Canadian exchange rate, which improved our balance of payments with the world market. A healthy balance of payments is essential to the health of any country.

Without it, Canada's debt has to be serviced and payments to imports have to be increased, which hurts the pocket book of every Canadian.

The huge wheat sales came at a time when economists were warning of a slump in our rising prosperity, due to a declining export trade.

Fortunately, dollars flowing in from these grain sales came to the rescue, pumping extra life into our economic system, and providing it with increased drive.

Single these facts, many of Canada's farmers are finding it

impossible to secure a decent living from their land. The number of farms in Canada is dropping steadily, and the farm population is dropping even more rapidly. This is a sad state of affairs, and it is one that must be corrected.

The relative importance of agriculture, however, has declined. Economists report that it will play an even less significant role in Canada's future, and that our prosperity will be more and more dependent on manufacturing, especially on heavy manufacturing, of products suitable for export and sale in the markets of the world.

increase the productivity of the grain fields. One way being explored is the hiring of more tractors, eliminating vast areas of land that are now idle.

The trend has been towards larger farms, and more mechanization. Farmers are using more and more machinery, and this is leading to a consolidation of the industry.

On the prairie, studies are now being made for farms in the west. These studies are showing that the future of the prairie is in the hands of the farmer.

It's the end of the trail for this old wagon, as it is depicted and driving on a horse-drawn trail.

The Car Crusher
The Surrey Leader, Cloverdale, B.C.
In Great Britain plans are going forward to send a mobile car crusher roaming the countryside. It will smash old cars into shreds of metal. The machine is capable of reducing entire cars into blocks of metal 11 inches by 22 inches by 24 inches, within three minutes.

Perhaps we in British Columbia could adopt this idea. It should be that expensive a program, and we would get results.

Drive the main highway routes of this province, and you will note these abandoned car wrecks. They seem more numerous in the interior—perhaps it is the dry air which preserves the chassis better, perhaps it is the sparse vegetation which makes them more noticeable.

Every little town has its contribution of these eye-sores and you will find them more numerous in some areas.

Not that you have to go to Kamloops to find "car wrecks." They are plenty right here in Surrey, but most often they are strewn around private properties.

The car crusher, though, might give us instant control over working yards and service stations, many of whom have a tendency to hold Surrey by long some what.

County could contract with the Provincial department for the machine to come to this municipality and tow the whole district's stock in the street. The cost of anything abandoned on the roadside and a few thousand dollars of the private owner would be a call to get rid of that old wreck that has been hanging out to haul the grapes for the next four years.

We might even be able to break even on the project. We all talk about beautification and beautification has been passed in many places with this objective. Not much is done really, though, for all sorts of reasons. A mobile car crusher would not be that expensive one for all of British Columbia, and it would from the makers improve the look of countryside and towns alike.

NEXT WEEK RODEO DAYS IN EDSON

Edson, Alta., Wed., July 26, 1967 Vol. 14, No. 29

Peers Achievement Day winds up successful year Queen Candidates add lovely District flavor

A beautiful sunny day and an enthusiastic crowd helped the Peers Achievement Day wind up the end of a successful year for the district.

During the morning the judging of the beef and dairy animals took place, while in the afternoon the rodeo was held.

After purchase of a tasty meal served by the Edson Club, the afternoon began.

The crowd that turned in to watch the rodeo was the largest in the history of the district.

The rodeo was a very enjoyable and profitable one for the district.

Owens Grand Champion for the second year

For the second year in a row Miss Bonnie Cooper has owned the Grand Champion beef in the Edson 4-H Beef Club. Her animal, an Aberdeen Angus steer, was awarded the Bank of Nova Scotia Trophy. Her animal was purchased by Linford Foods, Edson's IGA Store, for a top price of the sale, 44¢ per pound. Total price was \$411.04.

The twelve best fish owners here made a very good showing with their animals, with the club only in its second year. The young people made a fine showing, and in the next year, as you can imagine, will show their animals. The Young-Lamb trophy, donated by Roy Carlson of a hip wader, was won by Allan Roy.

Rodeo fever is slow in reaching its peak in summer, but it is expected that by parade time Friday morning the town will be hopping with activity as usual and Western hats will be the order of the day. The Sheriff's posse set up their jail next to the trader office on Monday this week, but business was slow for a couple of days. Local citizens then seemed to start breaking a lot of rules and the pseudo lawmen were kept busy.

Friday evening will see a big downpour, one starting at ten p.m., and ending at ten p.m. in the middle of the night. There will be a strong wind in the morning. There will be a strong wind in the morning. There will be a strong wind in the morning.

MR. and MRS. DENNIS L. FORBES

A lovely wedding was performed in the home of the bride, Mrs. Dennis L. Forbes, on Saturday, July 29. The bride and groom were surrounded by family and friends. The ceremony was officiated by a local minister. The reception was held at a nearby restaurant. The bride wore a traditional white gown, and the groom wore a dark suit. The wedding was a joyous occasion for all who attended.

Marikore couple give wedding vows

A pretty wedding took place in the Catholic church at Marikore when (Robert) Marikore and (Lynne) Marikore were united in matrimony. The ceremony was held on Sunday, July 29, 1967. Father (Carmy) and a host of guests were present. The bride, Lynne, was accompanied by her father, and the groom, Robert, was accompanied by his mother. The ceremony was a beautiful one, and the couple was pronounced man and wife.

The bride was given in marriage by her father, who was a co-host along with the groom. The ceremony was held in the Catholic church at Marikore. The bride, Lynne, was accompanied by her father, and the groom, Robert, was accompanied by his mother. The ceremony was a beautiful one, and the couple was pronounced man and wife.

A lovely turkey dinner was served at home of the bride and groom. The dinner was a beautiful one, and the couple was pronounced man and wife. The ceremony was a beautiful one, and the couple was pronounced man and wife.

One of the most successful rodeo riders in the world is a 37-year-old cowboy named Tom Mix. He has won 100 rodeo titles and has been a member of the Professional Rodeo Riders Association since 1950.

Whenever he drives into a new town, he would visit the local sporting goods store. "I'd like to see what you have," he would say. "I'd like to see what you have."

Then it wouldn't take long to realize he had been in the store before. "I'd like to see what you have," he would say. "I'd like to see what you have."

It was a fact that he had been in the store before. "I'd like to see what you have," he would say. "I'd like to see what you have."

EDITORIAL

RODEO CHAIRMAN A
TOUGH JOB

In this year of Edson's Tenth Annual Rodeo the thought has occurred to us as to how many people give even a fleeting thought to the amount of energy, time, idealism and plain executive ability is required for the person who lets himself become rodeo chairman.

As printers and publicists, and some days confidants of rodeo chairmen through the years, we wonder how we have been so lucky as to have had such competent men undertake this almost thankless task. This year's chairman, Dick Topp, has done an outstanding job.

Dick, backed by his wife, both newly in business in town, undertook the arduous task from Jim Griffiths who in turn had taken it from Jack Hook, and so on back for ten years. However this year Dick inherited a job that long standing committees had staved to regard as routine. This year there was a bit more spauld than in previous years. Dick, with the drive that we were proud to watch overcome the disinterest and came up with a rodeo that Edson and district people in their thousands has come to expect.

He was tired from pushing when we talked to him just before going to town, but beginning to realize that he too was going to be remembered as a Rodeo President who had pulled it off and given our community its big summer diversion. Along with Dick we noted commitment and wisdom of previous years and some new faces they too helped make our community a better place to live.

A STABILIZING FORCE

The private industry that has done much to stabilize the forest products industry in our area has been with us for ten years in the middle of this month.

It seems only yesterday that we heard the arguments that the small lumber operator was all through in our area and that the big pulp mill would be a disaster. It proved that way for some lumber operators who couldn't fit into the new look in the Edson forest. For others it has changed their mode of operation, but they are still with us.

The most significant thing probably is that the forest products industry is no longer the industry of the long hours in the bush, the low pay and the poor working conditions for the lumberman that it once was. The new exception is the small man trying to take out a few cords and the trucker trying to haul his pulp. The long log process and the big operator were destined to replace him in our local economy.

The private enterprise is the North Western Pulp and Paper Ltd. plant at Hinton. With them next week we observe the changed economy of our district. Individual hardships being allowed for, we are now on the verge of forest management that should be a solid base for a stable economy in our area in our time.

Congratulations NWPP!

Plan reception for
Yellowhead Caravan

An open air reception and luncheon at the Glenwood Drive-in has been planned for members of the third caravan to travel the Yellowhead Route from Winnipeg to Vancouver. The reception will be hosted by the Edson Chamber of Commerce. Already several local residents have indicated their intention to join the caravan and continue to Vancouver with the group.

The Caravan is scheduled to leave Winnipeg on Aug. 17 and proceed to the Yellowhead route. Registration from camp points along the route are up from the past two years. They are scheduled to arrive in Vancouver today, August 17.

Official welcome, has been given to the caravan and has been given to the caravan. The caravan is scheduled to arrive in Vancouver today, August 17.

Injured in
Rodeo events

George Morris may have won the Canadian Rodeo Trophy for All Round Cowboy at the Edson Rodeo, but there was another young Edson Rodeo champion who should certainly have won something for trying.

Betty Reeves is over his back Friday afternoon in his first rodeo. In fact he was the fourth rider up in the first event.

He took a mighty hand that sent the audience we called to take him to the rodeo for a cheer, although he pained.

He was back on the grounds following intervention and arrived in the old home name, with the help of his two buddies he got his horse out and mounted the crowd, but only for a few seconds before he fell the date. The saddle back to the chutes almost crashing in every saddle.

But he began to get back in the saddle once again, but this time he was alone. He appeared his count struck in his first rodeo and he was taken to hospital where it was found he had sustained a broken ankle and some bone ribs.

BETTY REEVES
The crowd of the Yellowhead Route deserves the support of the whole of Canada and especially all those living in the north central parts of Western Canada.

Former residents recall days of yore

Former Edson residents who were born and raised in the town recall the days of yore. Many of them are now living in other parts of the world, but they still remember the town they grew up in.

**Why is the printed
word so important
in Advertising?**

- It's Clear
- It's Permanent
- It's Believable

THE DAILY NEWSPAPER IS THE GREATEST ADVERTISING MEDIUM for many reasons. One of them is that it carries the power of the printed word. People believe in a message that is permanent; one that is written. They understand it better. Also, the newspaper because of its permanence lets the reader choose his own time for absorbing the message. And once set down it can always be picked up again. The message that lives is the one that is written in the newspaper.

The Hinton mill looking towards the bright side of the Canadian Rockies.

A Decade of Progress Report of a New Industry on the Bright Side of the Canadian Rockies

Micro-photograph showing the slender, uniform fibers, which give the pulp high modulus, fold and tensile characteristics.

FACE

REPRODUCTION

Alberta Hi-Brite pulp improves the quality of many paper products. ASBURY, **Hi-Brite** "the whitest white you've ever seen!" CRAFT PULP

The eastern slope of the Canadian Rockies with its plentiful supply of spruce and lodgepole pine attracted North Western Pulp & Power Ltd. and resulted in a new industry - pulp and paper - in Alberta.

It was ten years ago that North Western began its operations in Hinton. At that time, Hinton was only a whistle stop with a population of 180 who were mostly trappers and small scale loggers. Today it has a population of about 4,500 people who live in modern houses in a town which has all those things which make living pleasant and enjoyable.

North Western has played an important role in Hinton's progress through its contributions to its economic well-being, its community service and recreation activities, and housing and other construction.

The company contributes not only to Hinton's economy, but to that of Alberta and of Canada through its employment, taxes, purchases and other expenditures.

The operation of a mill as large as North Western requires an assured supply of its raw material, trees, as well as great quantities of water. The mill production has increased considerably since it received the original grant of 2,000,000 acres of Crown timber. Originally it produced 430 tons a day - it now produces 550 tons a day. This means that its raw material requirements have increased substantially and become more critical.

In planning for the perpetuation and conservation of these Crown timberlands so that there will always be timber available, North Western's highly skilled foresters use the most modern techniques known to assist future generations in preserving the timber growth and beauty of this entire region for future generations. Its forest management planning embraces the multiple use concept with timber production of prime concern. This concept provides for recreation, wildlife habitat, watershed protection and other uses as well. The more than 150 miles of roads which have been built by North Western make it possible to reach areas which were formerly inaccessible.

North Western's decade of progress would not have been possible without its employees and the many other people who gave their enthusiastic support to helping North Western establish its operations.

North Western expresses its appreciation to all of them and looks forward to continuing progress in a favorable climate for growth in Alberta. • North Western is owned jointly by St. Boris Paper Company and North Canadian Oil Ltd. St. Boris owns a majority interest in North Western, manages its operation and sells its output.

Application made for district radio station

Edson and area may receive its own radio broadcast service. An official announcement received from the Board of Broadcast Governors in Ottawa reveals that it will consider four applications for private commercial radio stations in Alberta at its September 12th Hearing in Quebec.

Among them is an application made by Ernest Mushtuk of Edmonton for a station to serve West Central Alberta with a power output of 10,000 watts and a frequency of 870 Kc. Proposed offices and studios would be located at Edmon.

If approved by the Board at this sitting, the new station will be operational by early Spring of 1968, and will serve Edison, Whiteroot, Hinton and (it is hoped) Jasper)

Other Alberta applications include one for Westlock and two for Wetaskiwin.

Alex Gorecki passes away at Eden

Mr. Alex Gerschl of town passed away on August 7, aged 76.

He leaves to mourn his loss his loving wife, Anne, three sons: WILLIAM, of London, Richard of Calgary and Gust of North Vancouver, B. C. and six grandchildren.

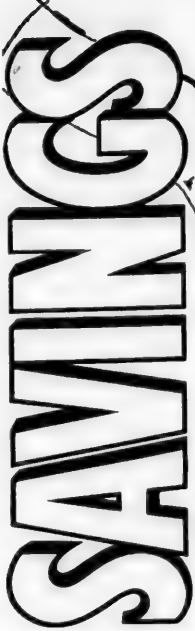

The funeral service was held on Thursday August 10th at 11:30 a. m. in the First Baptist Church, 1st and Main Sts., St. Louis. The Rev. J. C. Smith, pastor, officiated. Burial was in Greenwood Cemetery.

Floral tributes were received from: Loving Family Alex and Ann; North West Pulp and Power Bill and Florence Tornick; Mr. and Mrs. Gittel and Mr. and Mrs. Kalyk; Fred Hansen.

Since Funeral Home was in charge of assignments.

Murray Crier presents Rodeo Queen Judy McNaughton with a trophy on behalf of the Lions Club for the wonderful effort and sportsmanship she displayed in this years Rodeo Queen contest. In the seven consecutive years that Murray has been chairman of the Lions rodeo queen committee he has had six winners.

Cash Prizes for Bazaar of Values Customers

A Golden Opportunity is being offered Edson and district residents for the next week this summer by 21 local merchants who are participating in the "Bazaar of Values."

In addition to the quality merchandise at prices you'll hardly believe, customers will also have the opportunity to win a series of cash prizes.

During the next week customers there will be a total of \$100 in cash prizes in cash prizes to lucky customers purchasing items from any of the "Bazaar of Values" merchants.

In the first four weeks there will be a \$10 weekly prize. For the next three weeks and the eighth and final week will be indicated by a grand prize of \$100.

The procedure for participating in the weekly prizes, including the final week's grand prize contest, is simple. All a customer has to do is fill in his, or her, name, address and telephone number on any sales slip, check slip or other proof of purchase from any of the merchants offering "Bazaar of Values" savings.

These slips should either be mailed to The Edson Leader or dropped in to The Leader office. They will be placed in a special "Bazaar of Values" box located in The Leader office.

Each week a lucky winner will be drawn from the box and upon answering a simple skill-testing question, the prize will be presented by the merchant on whose slip the entry is written. A notice will also be taken of the

lucky winner and published in the next issue of The Leader.

The slips from each week's draw including that of the lucky weekly winners, will be placed in the Grand Prize box, also to be displayed in The Leader office for the \$100 draw which closes the program. Thus, slips must be sent in or dropped in each week, to participate in each week's draw though all entries will have the opportunity of winning the \$100 grand prize.

The Leader and participating merchants in Edson hope that this will add excitement in addition to the many specials to be advertised by the merchants, who are participating in the "Bazaar of Values."

IT'S LIKE THE LADY SAID...
"BUT IT'S A GLOOMING FEELING, TO BE AMONG
PEOPLE YOU KNOW AND TRUST!"

This was overheard when an Edson Area customer returned after a big city shopping trip, where she encountered the hassle and the "don't care" attitude of the big city clerk.

Recognition, fellowship and trust are basic needs, and you'll find all these attributes in the Edson Area. You run shop with confidence, with friends and smile hours, to help you find exactly what you need, at the price you want to pay!

Why is the printed
word so important
in Advertising?

- It's Clear
- It's Permanent
- It's Believable

THE DAILY NEWSPAPER IS THE GREATEST
ADVERTISING MEDIUM for many reasons. One
of them is that it carries the power of the printed
word. People believe in a message that is
permanent: one that is written. They under-
stand it better. Also, the newspaper because
of its permanence lets the reader choose his own
time for absorbing the message. And once put
down, it can always be picked up again. The
message that lives is the one that is written in
the newspaper.

Only three tickets have been drawn so far on the numbers added to the main draw winners of the two Friday night draws at the recent event.

Mrs. Albert Jaeger held the earliest number in the Saturday draw but second prize went to the ticket holder office, a sister ticket which was turned in on the "Saturday Draw by Mrs. Wm. Ward, Box 111, Elmhurst, Ill."

Mrs. Florence Brown, Box 10, Eden, Pa., also won.

Mrs. Jaeger will have to take her work to the office of Topham and Bertheim, Accountants, to claim her prize.

A break occurred last Friday afternoon, took the life of Lloyd Joseph Bernard, 34, of 401 E. 10th St.

The incident occurred behind Belmont's house when a three-ton truck pulled back over him, Bernard. The truck had pulled 10 feet before it struck the victim who was found lying under the vehicle.

The funeral service took place from the lady of the house, Mrs. J. J. Sullivan, at the Catholic Church in Hinton on Monday, August 21st.

A very successful Achievement Day was held last Saturday by the 4-M Light Horse and Pony Club. Bob Mitchell, at centre, top point winner in the events, holds the Edson Motor Hotel trophy and an individual plaque while club leader Mrs. Marge McEinnis holds his Shell Oil (J. A. Mearl) Trophy, and the Buy-Rite Trophy. Mr. Jack Korne of Edmonton, at right, judged the days events.

Mrs. Bernice Robinson (picture at right) accepts the congratulations of Leader Staffer Susan Robinson on having her name drawn to win the \$100 final prize money put up by the Leader in the recently completed Bazaar of Values series of advertisements. Mrs. Robinson's entry was one of the sales slips. She has seven children so felt the money would come in very handy. Her name was drawn by Mrs. Bernice Morgan of Edson Bry Cleaners, (above) while Mrs. Claire Sumpson held the box of sales slips which had taken part on the Bazaar of Values for the past two months. Two hundred dollars in prize money was given away by The Leader during the Bazaar of Values.

Edson Locals

Twins and little Joseph, recently of Victoria, B.C., were around town this week, calling on old friends during a month holiday before they begin a new job with the National Parks Department at Vancouver Island.

They and their Canadian friends arrived in Edson on Monday. The children are on holiday from their home in Vancouver and are spending most of the time at the home of their father, Mr. J. C. "Uncle" is presently on holiday. He was born in Western Canada but a visit with his wife and family and a visit to Edson, from there he was going to Canada to visit a niece, the daughter, Mrs. John Lee. He has been in Edson for the past week and will be here for the next week.

Mr. and Mrs. Fred Hurdle had the pleasure of meeting a three week visit from Mr. Hurdle's nephew and wife, Mr. and Mrs. Fred Hurdle of Birmingham, England. The visitors thought the home was interesting and the family delicious meal was wonderful. They took back a great many pictures of the home and a wonderful holiday. They returned home last week by air and were entertained at a father's at the home of Mr. and Mrs. Hurdle in Edson as a little family before returning home.

On Sunday when one of the children of the Hurdles, Mr. Hurdle called on Edson. He was Mr. Fred Lee who was Mr. Hurdle's first son-in-law. He was born in Edson and has been in Edson for the past week.

Mr. and Mrs. Hurdle are now in Edson and are enjoying their visit. They are staying at the home of Mr. and Mrs. Hurdle in Edson.

MR. AND MRS. GILBERT M. PANNEMAKER

The Sacred Heart Church was the setting at 7:30 p.m. on July 22 when Joan Stahler (Stahler) became the bride of Gilbert M. Pannemaker, Mrs. P. C. "Uncle" performed the ceremony for the daughter of Mr. and Mrs. Edgar Stahler of Edson and Mr. and Mrs. John Pannemaker of Edmonton. The church was decorated for the occasion with bouquets of daisies and colored streamers.

The bride was given in marriage by her father, her wedding dress was a three party frock, the veil was a length of tulle over the shoulders and down the back. She wore a simple white dress with a long train.

The bride's bouquet was a simple blue dress with matching shoes and white socks.

**I'm the
best beer
in the house.**

They both are.

How can you make a choice? Well, Lethbridge Lager is bold and brassy, Lethbridge Pilsner is a traditional beer, naturally-aged the old-fashioned way. Both are quality brewed, an it's all a matter of individual taste. And, as you can see, the beers speak for themselves.

District men killed in shocking accident

Two local district area families were stunned at the weekend by deaths in a two vehicle accident north of Hinton which took the lives of two young men, Norman Joseph Fambury, 25, of Robb and Robert Mackay, 29, of Robb and Hinton, were among those killed when a panel truck was in collision with another truck.

The accident occurred about 10 p.m. Sunday when a one-ton panel truck was returning to Hinton on the Alberta-Saskatchewan border. The panel truck was a single motor vehicle and was traveling in the wrong direction of travel when it struck a semi-trailer truck. The semi-trailer truck was traveling in the correct direction of travel. The collision occurred on a two-lane road. The semi-trailer truck was carrying a load of lumber. The panel truck was carrying a load of lumber. The accident resulted in the deaths of two young men. The families of the deceased are being assisted by the Red Cross. The accident is being investigated by the police.

Looking over the exhibits at the FUA Fair last Friday the Leader camera caught this quietist lurking behind the flower exhibit.

Left to right are Mr. Tom King and Fair Committee members Nick Miluch, Ernie Fambury and Mrs. Irene Osipow.

FUA Bench Show an outstanding success

A lovely summer day, more exhibits than usual and a general feeling of well-being all contributed toward making the FUA sponsored Agricultural Bench Show last Friday, a decided success. It is gratifying to see quite a number of town entries as well as the rural exhibits. These were mostly in garden, canning, cooking and handicraft classes. They show a healthy melding of rural and urban activities.

The committee in charge of the fair were Mr. and Mrs. Tom King, Mr. and Mrs. Nick Miluch, Mr. and Mrs. Ernie Fambury, and Mrs. Irene Osipow.

A Canadian looks at Malawi

BY MISS EVA GELMCI

This year while Canada celebrates its tenth birthday, another country celebrates its first birthday as a republic. That country is Malawi, a small nation in Central Africa, from which I have recently returned after spending two years as a teacher under Canada's Terminal Aid program.

Although very modern, Malawi is a developing country. It is a young nation, only a few years old, and it is still in the process of building its infrastructure. The country is rich in natural resources, but it is still a poor country. The people are very friendly and hospitable, but they are still struggling to improve their standard of living.

At present, I am a teacher in Malawi, and I am responsible for the education of the children in my school. The children are very curious and eager to learn, but they are still at a very basic level. I am trying to teach them the basics of reading and writing, and I am also teaching them about the world around them.

Orioles take top money in tourney

By Mel Soltysh

The Edson Orioles copped their first baseball tournament of the season by defeating Devon Saturday Kings 10-7 in the final game of an eight-team Labor Day weekend tourney played at Edson. Their win over Devon, last year's tournament winners, gave them first prize money of \$200 and the Commodore Hotel Trophy. The Kings, a major power in the Oilfield League, pocketed \$100 for their second place finish.

Edson School enrollment up

Edson schools opened Tuesday morning at 9:00 a.m. with a mass reception from the students. For most of the older students it was fun to get back and see what books, etc., they would be needing; meet friends they had not seen all summer; and see what their teachers or teacher would be.

For the first graders I want to all welcome, we were up to the Indian to take pictures at 9 o'clock, and there some people were looking at the pictures wondering what was coming next.

Injured when tree falls

An employee of Alaska Engineering and Survey Marshall Willes is alive today but says he was wearing a hard hat last March 14. Willes was working with a crew clearing right of way for a gas trunk line when a tree fell on him. His head had been broken.

He was working in an orchard about forty or fifty miles north of Edison just beyond where the gas pipelines or pipelines are a record several years ago in which a chain of erosion had threatened.

David Overton smiles as he hands Clarence Shephard a box of cigars. David operates the concession booth on the first floor of the Province Building. An Edison boy, David lost his sight through a diabetic condition. After he had worked for some time in the canteen at the Glenrose Hospital in Edmondton the CNIB set up a booth for him to provide an opportunity to become partially self-sufficient and to give him something to do. The patronage of local residents will be much appreciated by David. Mr. Johnston helps him with his monthly book-keeping.

EDITORIAL COMMENT

DON'T HOLD YOUR BREATH

LOOK AROUND

Sure the Oval Branch is bound to come back perhaps even in the lifetime of middleagers. It may hinge on the Japanese business represents three who have been looking around this summer or it may be the result of such parties as those of U.S. Steel who were up the Branch several years ago.

The certain thing is that all that energy represented in the vast coal fields will eventually be utilized as other sources are depleted. No contracts seem to have been signed for the branch or the coal fields on the New Resources Railway north from Nelson.

The new railway is in the best tradition of building the railway first as an investment and waiting for development of a new part of the country to make it pay.

In the meantime a train a day still brings limestone off the Oval Branch for Edmonston and the roads to the branch are being improved. Calgary Power has electrical power there. So the ghost town will come day by day more lively.

While not holding our breath for good things from the branch, a look around shows that this is not the only valley thing about our area.

Farms are being cleared to the north and east of a role that is encouraging. This year's agricultural show in Edmonston would not have been possible a few years ago. Our cattle industry is running along each year. We talked to a farmer from west of town the other day and he was all smiles. His hay was all up and his grain all stocked and thought he would be able to get the land cleared in private for next year. He liked the land but summer we've had.

Another reason Edmonston district doesn't have to hold its breath for any one of the eggs in our basket is the highway industry which must have set some sort of record this year. With the Yellowhead Route almost a reality it will do nothing but grow.

Who said it was a bad summer?

The STETTLER INDEPENDENT editorializes on the shocking revelation in the United States where the great black ghettos of the major cities protest the insidious conditions of inequality and poverty and the blood, indifference of the white man to their problems. The U.S.A. must honestly offer it is striving hard to find solutions to provide the opportunities of education and employment with the minimum standards of living for these desperate citizens.

The CARSTAIRS NEWS says Canada now is still comparing Canada's new maple leaf flag with the former standard the Red Ensign. It is becoming more evident that the new flag may not be as popular as the next Centennial year on the Red Ensign in 1967.

A UNIQUE BOOK ON ALBERTA'S NATURAL HISTORY BECOMES AVAILABLE SEPT. 14th

Alberta's first major scientific and educational publication is now in the natural history of our province, a volume by Canada's 100th birthday.

ALBERTA: A NATURAL HISTORY is the combined project of Natural History and Learned Societies in Alberta and from the ranks of these societies came most of the 30 distinguished authors and editors who prepared the authoritative manuscript. The editor in chief was Dr. W. George Barth of Edmonton.

Here, under one cover is revealed the fascinating story of Alberta's natural environment, its history, climate, geology, geography, the flora and fauna of the province, early natural history explorations, the study of natural history and the history of man.

The finished volume is 144 pages in length, with over 100 illustrations, a bibliography, and a list of references, and an index. It is a unique reference, and an excellent guide to the study of Alberta's natural environment and man's relationship to the environment.

In addition to providing material for the study of the province, the book is a unique reference, and an excellent guide to the study of Alberta's natural environment and man's relationship to the environment.

Training program benefits oil industry

A new full-time program of training workers for the drilling branch of the petroleum industry got

under way September 11 at the Alberta (U.S.) well drilling school in Edmonton.

The school, which will eventually become a major center of a complete industrial training center, offers courses set up by the Alberta Petroleum Institute of the U.S. well drilling school.

The first class will consist of 15 students working the basic skills of the work. Approximately 10 students

were expected to enroll for the initial two-week course and five transfer courses will follow throughout the year.

Marlboro celebrates Canada's birthday

By Mrs. B. Lovell
The Community of Marlboro held their major celebration of the Centennial year on September 4th. The celebration took place in the hall and the park, both Centennial projects of the community. A nice crowd attended and the weather was lovely making it a day to remember for many months and years to come.

CAMROSE RADIO CLAIM
CONSIDERED NONSENSE

The claim that Camrose radio station, which is in consideration for purchase by persons interviewed by this leader, "While there is no reason to question the claim by Camrose that they provide a good farm and news coverage," said a local spokesman, "reception in this area is spotty and they certainly don't do anything for the large towns in this part of Alberta."

Ernest Mushtuk, who has met with local people on the proposed radio station, said the area around Rison, Hinton and Whitecourt is developing economically with new pulp mills and coal mines and the future appears bright.

With more than 24,000 residents in the station's proposed coverage area, the region was already big enough and buoyant enough to support a local radio station, he claimed.

A signal into Jasper town is also a possibility and a reception station was poor his group would seek BBC permission to use a repeater satellite to send a good signal into the Park.

Harold Verax, president and general manager of the Camrose station claimed that despite the 170 million within Camrose and Edson CTV serves us with agricultural and news broadcasts.

The proposal for the local station by Mr. Mushtuk was one of four placed before the Board of Broadcast Governors in Quebec City this week for new radio stations in Central Alberta. The new stations applied for were for one at Monticlock and two applications for Monticlock.

There is no need to be afraid of the word "feminist." It is not a new word, and it is not a new idea. It is a word that has been used for many years to describe a woman who is interested in the rights of women and in the role of women in society. It is a word that has been used by many women who have been fighting for the rights of women for many years. Asked what he thought of Conservative changes under a new leader in the next general election, Mr Gossain said: 'We'll win the next election. After the shock of the shabby revelation recorded John [in *Express*] says of I trust that the Conservative Party will be the Conservative Party as far as the general election is concerned.'

The 30-year-old father of two has lived in London for the past 10 months and says he is "settling in well." He is working with the SWA in Canada and continues to live at his parents' home. "I really like it," he says. "I have a good job, a good salary, and I like the food and the weather."

Comments from Around the World

By Evelyn Talpash Anderson

The first of the comments from around the world is from a reader in London. The reader writes that they have been thinking about the situation in the Middle East for some time. They mention the conflict between Israel and the Arab states and how it has affected the region. They also mention the role of the United Nations in trying to resolve the conflict.

The second comment is from a reader in New York. The reader writes that they have been following the news about the Vietnam War. They mention the protests in the United States and how they have affected the war effort. They also mention the role of the media in reporting on the war.

1. The first step is to identify the key components of the system. This includes understanding the hardware, software, and network architecture.

2. The second step is to define the requirements for the system. This includes identifying the functional requirements, performance requirements, and security requirements.

3. The third step is to design the system. This includes creating a detailed architecture diagram, defining the data models, and specifying the algorithms and logic.

4. The fourth step is to implement the system. This involves writing the code, configuring the hardware, and setting up the network.

5. The fifth step is to test the system. This includes performing unit tests, integration tests, and system tests to ensure that the system meets the requirements.

6. The sixth step is to deploy the system. This involves installing the system on the target hardware and configuring it for production use.

7. The seventh step is to monitor the system. This includes tracking the system's performance, security, and availability to ensure that it is running smoothly.

8. The eighth step is to maintain the system. This involves updating the software, hardware, and network components as needed to keep the system up-to-date and secure.

1. The first step is to identify the problem. In this case, the problem is that the company is not meeting its sales targets.

2. The second step is to analyze the data. This involves looking at the sales figures for each product line and identifying any trends or patterns.

3. The third step is to develop a plan. This involves setting specific goals for each product line and determining the actions that need to be taken to achieve those goals.

4. The fourth step is to implement the plan. This involves putting the plan into action and monitoring the results.

5. The fifth step is to evaluate the results. This involves comparing the actual results to the targets and determining whether the plan was successful.

6. The sixth step is to make adjustments. If the plan was not successful, it may be necessary to make adjustments to the plan and try again.

7. The seventh step is to report the results. This involves providing a summary of the results to the management and the board of directors.

8. The eighth step is to conclude the project. This involves wrapping up the project and ensuring that all tasks have been completed.

9. The ninth step is to reflect on the project. This involves thinking about what was learned from the project and how it can be applied to future projects.

10. The tenth step is to celebrate the success. This involves acknowledging the hard work and dedication of the team and celebrating the achievement.

Northwestern Utilities local agent, Bill Ashmond, had a pleasant task one day last week. He spent the afternoon delivering free copies of the colorful book "Asiatica—a natural history" to the various libraries and institutions in town. The book was published by Northwestern Utilities and allied companies as their centennial project and is a wonderful souvenir of this centennial year. Ten thousand copies were distributed free to libraries, hospitals, Senior Citizen homes, etc. throughout the province as well as it being on sale to the general public. Receiving their copies are, clockwise, Matron Ruth Wilson of Parkland Lodge; Principal Art Jorgensen and Librarian Miss Elise Newton of Jubilee Junior High School; Librarian Mrs. E. Ahlf and Mrs. E. Manuel of the Edson Public Library; Sister Superior Knudsen of St. John's Hospital; Librarian Mrs. M. Burleigh and Principal Mayor M. D. Meade on behalf of the Sr. High School and the Town of Edson.

Three to contest two Council seats

A last minute decision to contest the local election for two Council seats made it necessary to hold an election next Wednesday, October 18. With only two men indicating their intention to run until almost the last minute, it was felt that Councilors would be elected by acclamation.

Jasper-Edson Federal by-election gets going

The Liberals and Conservatives have been arranging nomination conventions for the upcoming Jasper-Edson Federal by-election on November 15th.

The Liberals are to nominate at Wildwood this Thursday evening and the Conservatives are holding their nominating convention in the Legion Hall on Friday evening.

Unconfirmed reports from the city indicate there will be an NDP candidate from the city. No definite word was forthcoming from the Social Credit forces following a meeting this week in the city.

The Conservative nomination is being contested by Doug Foster of Edson and Jerry Lindner of Whitecourt as well as Calgary lawyer Ernest Watkins. Several names have been mentioned, about an informal meeting including a Jasper resident, Charles Hurdson of

rars.

Gallagher yielded only five hits during the whole game, struck out five and tossed one base on balls. Right fielder Bill Barker was the only Yankee to collect more than one hit off the Yankee mound as he banged out two singles in three trips to the plate.

Dave Brethauer took the win for Jasper. He allowed seven hits and one run, struck out five and walked two. Ed Smith's shortstop and Dan Ris painted two singles in

Langer had five or six other horses in the second game of the double and he says he'll earn on the next one. "I'll have a sixth coming and the seventh coming and the game will be a 7-7."

With two out and no runners in, Langer and his partner, Harry Teasdale, were waiting for a third runner. Langer pointed to Norm Dubay and Randy, who brought in a winner three times. "Let's take a double on them," Langer said. "If they finish out a double to drive in two runs and win all game."

The Packer was amazed. "7-7 in their half of the seventh inning when Norm's doubled to drive in two runs and Norm Dubay had had with him and doubled to get on with a run run in the eighth." Langer

Reese Teasdale handled the putting in better for the Orioles and gave up the tying run, which was eight and out, but was during the game. Dave Barnardson also pitched the second game for last year. The left-hander allowed base hits whiffed batters and walked three batters.

Teasdale walked a second four batters for John B. Smith, who pitched the last game of the season in the field fence and landed on the road near the fence. Ted Dugas and Ray Davis each pitched two hits, but Jasper had pitched more than one hit of Teasdale.

An outing looked forward to by the regulars the annual Thanksgiving Day turkey dinner at Marlboro will be held on Monday October 29th at Miller's.

Double your money with Canada Savings Bonds

One of the great things about Canada's Canada Savings Bonds, and this year's Series is the most exciting yet. Interest starts at 5½% a year—the highest starting rate ever on a Canada Savings Bond—and goes right up to 6%. (Over the 13 years to maturity the true average annual yield is 5.48%.)

Best of all, Canada Savings Bonds have a wonderful compound interest feature which pays you interest on your interest. Take full advantage of it and you will double your money.

As always, Canada Savings Bonds are instant cash. They may be cashed at any time for their full face value plus accrued interest. They are easy to buy for cash or on instalments. They fit all savings budgets—from \$50 up.

Buy yours today—
where you work, bank or invest!

And, for the first time ever, Canada's most popular personal investment may now be bought by businesses, churches, charities, clubs, and other organizations. Another first: the limit per holder for this Series has been increased to \$50,000.

Backed by all the resources of Canada, Canada Savings Bonds are a great way to save. Buy yours today and double your money.

The Economical Custom

For starters, one little bug costs about half as much as one big bug. But that's only the beginning.

The next thing to save you money is the bug's 1200 cc engine. It averages 30 miles to the gallon.

As far as tires go, a VW Custom goes about 40,000 miles on a set. And should you ever happen to leave the bug, you won't have to worry about parts. They're easy to find, easy to install and easy on the pocketbook.

You get adjustable bucket seats, and padded dash as standard equipment. Also a sideview mirror, windshield wipers, 4-way flashing lights and a heater blower. Not to mention 2 speed windshield wipers and safety belts.

New for 1968 are raised and redesigned bumpers. Revised door handles, headrests and an impact absorbing steering column.

We've done a little something for gas station attendants. We put the car cap on the outside where he can see it. But, of course, this is the economical Custom. So he won't be seeing it too often.

HOW FIRE-SAFE IS YOUR HOME?

Last year Canadians ran up a staggering fire loss of over 153 million dollars. Terrible as this property loss is, the loss of human life is even worse. 571 Canadians died in 1966 as a result of fire!

Three quarters of all fires happen in the home. Be an expert all the time!

ADOPTION is it for you?

To answer that question, you need all the facts—and to make it easy for you to get the facts the Department of Public Welfare has arranged to hold public meetings throughout Alberta. At these meetings, your questions about adoption will be answered by representatives from the Department. You will also be able to see colored slide pictures of over 1000 children now awaiting adoption.

Adoption is easier than you think and more wonderful. If you have no children of your own, or not as many as you would like, it widens the possibilities of adoption.

A public meeting will be held at Provincial Building

East and Districts in new Brown Soil Zone

The new Brown Soil Zone, which covers the entire area of the East and Districts, was officially announced by the Soil Conservation Service (SCS) on Monday, October 2, 1967. The new zone is a result of a comprehensive soil survey conducted by the SCS over the past several years. The survey found that the soil in the East and Districts is primarily of the Brown Soil type, which is characterized by its high fertility and ability to retain moisture. This new designation will have significant implications for agricultural practices in the area, as it will allow farmers to take advantage of the soil's natural strengths and weaknesses. The SCS is currently working on developing specific recommendations for the new zone, which will be made available to farmers in the near future.

Attention mothers

Attention mothers! The new Brown Soil Zone is a great opportunity for you to improve your soil and increase your crop yields. The SCS has developed a series of guidelines for the new zone, which are designed to help you make the most of your soil. These guidelines include recommendations for fertilization, irrigation, and crop rotation. By following these guidelines, you can ensure that your soil is in the best possible condition for your crops. The SCS is also offering a series of workshops and seminars for mothers, which will provide you with more information about the new zone and how to use it effectively. Don't miss out on this opportunity to improve your soil and your crops. Contact the SCS today for more information.

Wildwood 4-H Clubs to hold banquet

The Wildwood 4-H Clubs are planning a banquet for the members of the club. The banquet will be held on Monday, October 9, 1967, at the Wildwood Clubhouse. The menu for the banquet includes a variety of delicious dishes, including roast beef, mashed potatoes, green beans, and dessert. The banquet is open to all members of the club, and it is a great opportunity for members to socialize and enjoy a meal together. The Wildwood 4-H Clubs are also planning a series of activities for the members of the club, including a field trip to the local farm and a series of workshops on various topics. Don't miss out on these activities. Contact the Wildwood 4-H Clubs today for more information.

NDP choose Robert P. Christensen for Sobu

A nomination meeting of the New Democratic Party held at the town hall last night to choose a candidate for the Jasper-Edson by-election. Robert P. Christensen, a teacher from the town of Sobu, was chosen as the NDP candidate for the by-election.

Conservatives, Liberals and NDP have fielded candidates in the Jasper-Edson by-election to be held on Monday, Nov. 6th.

In order of their appearance on the ballot for the Conservative will be Edson publisher Doug Caston; Whitcourt lawyer Allan Sulatsky for the Liberals and Sobu school teacher Robert Christensen for the New Democratic Party.

Returning Officer Chris Nielsen of Peers announced the names of the three candidates at the close of official nominations at two p.m. Tuesday October 10th.

A statement from Social Credit headquarters in Edmonton last week announced there would be no candidate named by that party. Mr. Kevin Kennedy suggested to Social Crediters that they support any candidate who came closest to the principles enunciated by Premier Manning in his book on political realignment.

Whitcourt lawyer is Liberal by-election choice

The past week saw three nomination conventions held in Jasper. Doug Caston, publisher of the Edson Leader, was chosen as the Conservative candidate for the by-election. Allan Sulatsky, a lawyer from Whitcourt, was chosen as the Liberal candidate for the by-election. Robert Christensen, a teacher from Sobu, was chosen as the NDP candidate for the by-election.

The first of these was held at Whitcourt on Thursday evening at the Liberal Party house. Their name, with four members offering

C of C manager to speak here

Mr. A. Hurley, manager of Alberta Chapter and the Canadian Chapter of the C of C, will be present at the town hall meeting on Wednesday.

The meeting will be held at the town hall at 8 p.m. on Wednesday. The C of C is a fraternal organization that promotes the principles of the Golden Rule.

There was no doubt as to the success of the delegates who came from all over the province to the convention held in Winnipeg. The delegates of the C of C are now on their way home.

Edson youth killed instantly in car accident

A young man, 18 years old, was killed instantly in a car accident on the town of Edson. The accident occurred on Wednesday, October 12, at about 10:30 p.m. The young man was driving a 1958 Ford when he lost control of the vehicle and struck a tree. The driver was killed instantly.

The driver was identified as Robert P. Christensen, a teacher from the town of Sobu. The accident occurred on the town of Edson.

Curling Meeting

A meeting of the Edson Curling Club was held on Wednesday evening. The meeting was held at the town hall and was attended by a number of club members. The meeting was held to discuss the club's plans for the upcoming season.

Conservatives choose Doug Caston on first ballot

Conservative delegates to the Jasper-Edson by-election convention chose Doug Caston as their candidate on the first ballot. Caston is the publisher of the Edson Leader.

The convention was held at the town hall on Tuesday evening. Caston received the most votes on the first ballot and was chosen as the Conservative candidate for the by-election.

Caston is a well-known figure in the town of Edson and has been active in the community for many years. He is a member of the Edson Curling Club and the Edson Hockey Club.

ADOPTION is it for you?

To answer that question, you need all the facts—and it takes time for you to get the facts. The Department of Public Welfare has arranged to hold public meetings throughout Alberta. At these meetings, your questions about adoption will be answered by speakers from the Department. You will also be able to see colored slide portraits of many adorable children now awaiting placement.

Adoption is easier than you think—and more wonderful. If you have no children of your own, or not as many as you would like, investigate the possibilities of adoption.

THE BEER THAT WON THE WEST

Alberta's own brand... GOLDEN WEST

It has the winning, mellow taste that Westerners like best. It has the taste that is custom brewed for Alberta. It has the taste that is custom brewed for Alberta. It has the taste that is custom brewed for Alberta.

—made right and equal light, for the honest beer taste that's always "just right."

You get it every time in C.W. —the beer that won the west.

MEET EDSON'S VOLUNTEER FIRE BRIGADE

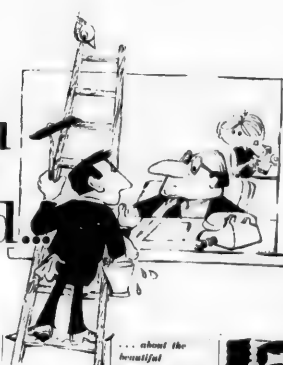

STANDING, LEFT TO RIGHT — BILL IWANOWSKI, DOUG THOMAS, BOB BOLTON, DEPUTY FIRE CHIEF DON MAXWELL, WILF GOSLING, KNEELING, LEFT TO RIGHT — WARNER SLICHKESKI, HAROLD ARMSTRONG, VIC CEBULAK, CARL UNDERHILL, FIRE CHIEF BILL COOH, JOHN MACDONALD, MISSING FROM THE PICTURE ARE BOB KISTENMAN AND FRED ARMSTRONG.

This dedicated group of men urge everyone to observe fire prevention week OCTOBER 8 - 14. Have you had your home inspected for fire safety? Your fire brigade is willing and able to perform this service at anytime. Already this year 29 people have died in fires as many as in all of last year.

Don't Be Next on the List Have Your Home Inspected Now

Have you ever wondered...

... how much it costs for complete hospital care in Alberta?

Five dollars the first day and \$2 for each day thereafter but after treatment hospital care that is all any Alberta resident has to pay to receive all of the services provided by his doctor or specialist, his nurse, while in a general hospital. The remainder of the cost is paid by the Alberta Hospitalization Benefit Plan, administered by the Department of Health. The Plan also provides for out-patient services, private and public, for the charges and makes available hospital care available to qualified patients for only \$10 a day. The patient chooses his own hospital, where treatment, and if he desires considers that he requires active treatment, there is no limit on the length of stay for which the patient is eligible. Out of pocket coverage is also provided by the Alberta Hospitalization Benefit Plan.

... what is the most important subject in Alberta's deaf school children?

Communication is the prime necessity for better life. Deaf pupils must learn to communicate with his teacher and with his fellow students. At the Alberta School for the Deaf, a branch of the Alberta Department of Education, students spend the first three years learning vocabulary, spoken and written language and some training before they begin regular school subjects. To teach these a combined method of sign language and speech reading, auditory training and finger spelling. Pupils learn the proper use of the sign of five and seven to make A if they have the ability and the desire. For other pupils, provision is made for the deaf-blind. For those deaf-blind, provision is made for the deaf-blind. For those deaf-blind, provision is made for the deaf-blind.

... where Alberta's firemen learn their trade?

Every year officers and potential officers from fire departments all across the

province go to what is the Alberta Fire Training School in Vermilion. There they take a five week course covering all aspects of their responsibilities from a student firefighter to administrative work. Fire Officers Training Courses are available to all volunteers for departments and to those professional firefighters which do not have their own training programs. Successful graduates receive a set of device notes and materials to enable them to pass along the acquired skills and knowledge to their men and fire fighters. There is no fee charged for the training and fire men and women are provided for, commensurate with Alberta. The Alberta Fire Training School is conducted by and equipped, maintained and supervised by the Fire Department.

... about the beautiful photographs which display Alberta to non-Albertans?

From West Germany to North Carolina from Burma to Birmingham people the world over are learning about Alberta from publications illustrated with life-like color photographs. The preparation of this attractive range of material is the work of the Film and Photography Branch of the Alberta Department of Industry and Development. These staff takes and processes these pictures used in government publications. In addition to these, Alberta is seen through the eyes of non-residents.

Alberta also helps to keep Albertans up to date on the things of the government as they produce photos and film clips of noteworthy events for reproduction on news papers and on television. Government photographs provided by the Branch are not available for direct advertising use, or to private individuals at large for direct advertising purposes.

... what type the agricultural "best seller" list in Alberta?

Actually it's a publication called "Ontario Wood Craft". Each year 12,000 of these included lists in three volumes are distributed by the Publications and Visual Aids Branch of the Department of Agriculture. The Alberta Farm Guide (which is included by the Alberta Farm Guide) is a publication of approximately 100,000 pages, distributed at a cost of about \$1.00 per copy. Reeder of 12 years will have the opportunity of seeing one of the most beautiful and rarest films ever produced on the Canadian Arctic and high Arctic regions. This is a motion picture entirely filmed in the HIGH ARCTIC region of Canada. A maintenance photographer did five years to come and acquire film to turn the islands of the Arctic into a picture and the eastern Arctic.

ADVENTURE HIGH ARCTIC moves from the Arctic region through Buffalo to the north and Yellowstone to the Great Salt Lake where you can see the most of our own and fish.

I'll guarantee that you'll find it one of the most beautiful and rarest films ever produced on the Canadian Arctic and high Arctic regions. This is a motion picture entirely filmed in the HIGH ARCTIC region of Canada. A maintenance photographer did five years to come and acquire film to turn the islands of the Arctic into a picture and the eastern Arctic.

The remaining scenes of the film are the shorebirds, eagles, and the colorful tundra. The film will come and can be seen in the eyes of a man.

During the next few days, if you see **ADVENTURE HIGH ARCTIC**, you will have a chance to see the most beautiful and rarest films ever produced on the Canadian Arctic and high Arctic regions. For a region, the photographer had Jones is a former bush pilot with almost 50,000 flying hours, who has seen much of Canada's northland and has studied the history of the region for many years. It is well qualified to give a thorough and complete history of life in the high Arctic.

ADVENTURE HIGH ARCTIC will be shown at the Jubilee Hall at 7:30 p.m. on November 22 at \$2.00 per seat.

Tickets may be purchased at Edson Outpost Supply or at the door.

North of 60° N. is the frontier, by the nature of our display of art and nature in frontally taking the region.

We enjoyed a brilliant high extravaganza of art and nature at the Jubilee Hall. The evening was so very early - had dinner with potatoes - photography materials and - Aqueducts - water - and it was, what a farthing and it was, Paris - to bid us farewell!

Inscribed by Jasper-Edson Conservative Association

Family Man

Doug Caston and his wife Vi and their seven children (three at home and four married) have been a vibrant part of life in their community for many years.

Community Man

There has been very little going on in the area that Doug through his newspaper and community participation has not had a hand in during the past 30 years, except for service with the RCMP during the war.

Business Experience

As a businessman employing a modest staff he has been best at, and solved many of the problems that operators of small businesses are here to.

For the Everyday Man

When Doug has taken up the pen it has been with the good of his community in mind. Impassive to anyone, especially the ordinary man, gets him and this is when he thinks he is performing his best community role.

Politics

Through the years Doug has worked and voted for whatever he considered the best men available without worrying about party labels.

Doug's father was a Saskatchewan Conservative where this took some courage during the Liberal regime of that province's early years.

In his teens, as many young men do, Doug experimented with the ideas of monetary reform as advocated by the early Social Credit movement, etc.

Experience has brought him around to the political philosophy of his Conservative father who held that government is for the individual and not the other way around.

Not Afraid

Doug Caston is not afraid to make decisions.

He is not afraid of criticism when he thinks he's right.

Has never been afraid of hard work he would never have chosen newspapering if he had been.

He has always faced competition head on.

Having lived most of his life in the west, public life has been a responsibility for him in the political arena should be right up his alley.

And he's not afraid to ask for your support in facing up to the principles he believes in.

An Important Election

Doug feels strongly that this by-election is important as a test of the constituency being gerrymandered in redistribution, going into Wetaskiwin and Vermilion, form state party of the new Rocky Mountain constituency.

Rocky Mountain is a mandate and still the interests of what is left of Jasper-Edson will need a strong voice speaking on their behalf.

The Issues

The interests of farmers in the west part of Jasper-Edson are being threatened by policies being put into effect in Ottawa right now.

Expansion of our petroleum industry is being threatened by the same policies in Ottawa.

While on our west side the people of Jasper are being threatened with what amounts to a reduction of their life savings. Their freedom is being compromised in the state where they are little better than second class citizens.

Double your money with Canada Savings Bonds

One of the great things about Canada is Canada Savings Bonds, and this year's Series is the most exciting yet. Interest starts at 5 1/2%, a year—the highest starting rate ever on a Canada Savings Bond—and goes right up to 6 1/2%. Over the 15 years to maturity the true average annual yield is 5.68%.

Best of all, Canada Savings Bonds have a wonderful compound interest feature which pays you interest on your interest. Take full advantage of it and you will double your money.

As always, Canada Savings Bonds are instant cash. They may be cashed at any time for their full face value plus accrued interest. They are easy to buy for cash or on instalments. They fit all savings budgets—from \$50 up.

And, for the first time ever, Canada's most popular personal investment may now be bought by businesses, churches, charities, clubs, and other organizations. Another first: the limit per holder for this Series has been increased to \$50,000.

Backed by all the resources of Canada, Canada Savings Bonds are a great way to save. Buy yours today and double your money.

Buy yours today—where you work, bank or invest!

Wedding of district interest

A young couple, Mr. and Mrs. VanDyk, were married in a ceremony held in the Edson office of the ADM. The ceremony was officiated by a local minister. The couple is expecting a child.

The Low Priced VW 1500 Sedan.

The Volkswagen 1500 Sedan is the lowest priced model in the big Volkswagen series. It has two trunks. One in front under the hood and the other at the rear over the 54 hp engine. The 1500 also has front wheel disc brakes, larger reinforced front ends, with locking rear brakes. It has an auxiliary gas heater and a fresh air ventilating system. Also a dual braking system, safety belts and 2 speed windshield wipers. There are 2 shock absorbers, whitewall tires, wheel trim rings, a large exterior mirror, less flammable upholstery and a new impact absorbing steering column. Plus a gas tank that you can now fill from the outside and all the other new improvements and safety features that we built into all Volkswagens for 1968. How many other cars can you think of that have such features as standard equipment for such a low price?

Penalty raised for unpaid taxes

OF interest to taxpayers, both paying and non-paying, is the approval by council of a proposal to raise the penalty for unpaid taxes from 10 per cent to 15 per cent. The proposal is contained in a resolution passed by the council on Monday.

The resolution states that the penalty for unpaid taxes shall be 15 per cent of the amount due, plus interest at the rate of 10 per cent per annum. The resolution also provides that the penalty shall be applied to all taxes due and payable on or before the 15th day of the month following the month in which the tax was due.

YES!

Jasper-Edson STILL needs a STRONG Conservative voice in the Parliament of Canada

DOUG CASTON
CONSERVATIVE

Family Man

Doug Caston and his wife Vi and their seven children (three at home and four married) have been a vibrant part of life in their community for many years.

Community Man

There has been very little going on in the area that Doug through his newspaper and community participation has not had a hand in during the past 20 years (except for service with the RCMP during the war).

Business Experience

As a businessman employing a modest staff he has been busy and solved many of the problems that operators of small businesses are now to.

For the Everyday Man

When Doug has taken up the pen it has been with the goal of his community in mind. Initiative to anyone, especially the ordinary guy, gets him mad and this is when he thinks he is performing his best community role.

Politics

Through the years Doug has worked and voted for whomsoever he considered the best men available without worrying about party labels.

Doug's father was a Saskatchewan Conservative when this took some courage during the Liberal regime of that province's early years.

In his teens, as many young men do, Doug experimented with the ideas of monetary reform as advocated by the early Social Credit movement, etc.

Experience has brought him around to the political philosophy of his Conservative father who held that government was for the individual and not the other way around.

Not Afraid

Doug Caston is not afraid to make decisions.

Is not afraid of criticism when he thinks he's right.

Has never been afraid of hard work — he would never have chosen newspapering if he had been.

He has always faced competition head on.

He is not afraid to learn from experience.

Having lived most of his life in the "outback" (his word) of newspapering where it's open season on editors all the time, he's taking up the responsibilities of life in the political arena should be right up his alley.

And he's not afraid to ask for your support in facing up to the principles he believes in.

An Important Election

Doug feels strongly that this by-election is important in spite of the constituency being overrepresented in redistribution. While some of our constituents will be going into Wetaskiwin and Ponoka, the western half of Jasper-Edson will form state per cent of the new Rocky Mountain constituency.

Rocky Mountain is a monster, but still the interests of what is left of Jasper-Edson will need a strong voice speaking on their behalf.

The Issues

The interests of farmers in the east part of Jasper-Edson are being threatened by policies being put into effect in Ottawa right now.

Expansion of our petroleum industry is being threatened by the same policy makers in Ottawa.

While on our west side the people of Jasper are being threatened with what amounts to confiscation of their life savings. Their freedom is being converted to the point where they are little better than second class citizens.

Ray Davidson to sing at Edson Cooking School

Citizens Power's Cooking School entitled "Candy Cane Kitchen" to be held in the Legion Hall on Thursday, November 9th, 1967 will feature the fine baritone singing of Ray Davidson. Ray is a very popular Calgary singer and will sing familiar songs old and new as well as lead those present in a "FUN" Sing-along.

Don't forget the date Thursday, November 9th at 7:30 p.m. Sponsored by the St. Catherine Anglican Women.

All proceeds go to the community. Oh, yes, there'll be prize galore, too!

I have been truly appreciative of the support that the people of Jasper-Edson have given to me during the time I served as your Member of Parliament.

When I resigned the seat it was with a feeling of genuine regret although I am still able to represent the people of La. Re. Anne on the provincial level. The friends who were so kind to me now have another Conservative to support in the person of Doug Caston of Edson.

Doug has my unqualified support and it is my hope that the voters who kept Jasper-Edson in line with the general acceptance of conservatism in the West will transfer this support to my successor.

Robert Macdonald and his Conservative party have a great deal to contribute to getting Canada going again.

ALBERTA

Editorial

A NEW CHAPTER

It is today and yesterday the people of England on your behalf elected a Member of Parliament.

The congratulations have been pouring in since last night and it makes one feel good to know that there were so many rooting for me. It's overwhelming to think that it's me this time after a lifetime of being in the wines.

It, to me, is a triumph for the Conservative way things have been going in Alberta for a long time. It is also a triumph for the small town type of man a newspaperman becomes through years of being associated with practically every thing in his community.

There is a common touch that exists in the newspaper business, says a man. It has been our boast that we are approachable and are concerned with the things that beset the everyday man in making his way in a small town. It is my hope that I will be able to keep in touch even though part of the new life will see me representing the constituency in faraway Ottawa.

To your local publisher faces a new chapter in his life. My one promise is that I will try to be worthy of the confidence placed in me as your representative in the senior government of this Canada of ours.

QUEER THINKING

It is hard to imagine the work
ings of a mind that would even
think of putting broken razor
blades in Hallowe'en apples. News
reports indicate that this happen
ed this year in at least two Cana
dian cities.

It is also hard to imagine the queer outlook that anyone, very likely in the age most likely to benefit from our community swimming pool, who would vandalize this community facility.

This is not the first time that destruction has occurred at the known built pool. It's just amazing to see what one group of people work to build brings out the vandalism in others.

It also costs the taxpayers of this town money to repair the damage. It is money that these young people must know is provided by their very own parents.

Epics From Canadian History

father Hempen at Niagara Falls, 1679. Carle's pamphlet had merely said that the water-rail frequented the falls and the Indians and French used it as war. Carle probably came within a few miles of it, but evidently never saw it. Hempen was probably the first Englishman to observe the water-rail. Carle's book was published a full and complete account of it. The sketch of the Falls Hempen saw, he made it into a legend and later published it as the truth. It is not to be expected that he would do this.

Although Heronius's sketch was not of proper size, its general features were accurate. The sketch shows that dramatic changes had taken place in the shape of the falls since then. The rainfall at the right in November of the western end of the three falls is 100 inches, says Mr. Table, but it is plentiful all over a considerable part of the basin. The lower break falls gradually eroded and the water from the frater's basin is now thrown on the day of the year. The great river then runs at the right of the frater's basin. It says:

Canadian farmers top the world

[illegible]

In the past decade the increase in Canadian farm production was 68 per cent, topping all countries and regions. "Over Russia's 30 per cent, over France's 20 per cent and over the United States fourth, with 11 per cent, the U.S. has had the lowest increase in farm production in the world," says the report.

Open House marks Silver Anniversary

When Shove was held at the Lunar Lounge in late October, it was in honor of '13, and Miss Lunar Lounge's silver was July 19, 1955 years. For the occasion a table was laid with a blue spread of sodas and a stack of silver tapers and tea set. The table was served throughout the afternoon and evening.

In spite of many roads due to a certain road, a host '13 relatives and friends attended the affair.

Major cause of car accidents

The vast number of accidents are caused by a single driver violating one of the rules he is accused of, says a report in *The Washington Post*. It is a study of 111 accidents in which 146 occupants were killed over a three-year period. Two accidents a year have been examined so far for the cause of death: the body, a car problem and the driver. One that had caused the

Doyle Coston, Businessman **A good choice by voters**

The election of Doyle Coston as Monday's by-election for the federal riding of Jasper House has not only been a surprise, but also a good choice by voters.

Liberal Allan Stoltzky made only a fair show of the polling just over half of the votes in Mr. Coston and again the N.D.P. candidate lagged far behind.

Mr. Coston's victory is a surprise in a constituency where the Liberal Party has been dominant for many years.

There is a large number of small business men, and farmers who are in danger of completely losing their vote in public affairs. They are not in number but they would prefer to see a general election and a more representative of this group is needed in Ottawa.

Mr. Coston has been in the newspaper business for many years. He is a member of the board of the H.N. and has been in the business for many years. He is a member of the board of the H.N. and has been in the business for many years.

He married the former Vi Walmouth of Edmonton and has made his home there since 1938. Mr. and Mrs. Coston have a family of seven, one son and three daughters married and two sons and one daughter at home.

THE PEARL IN THE OYSTER

Once again Edson has made headlines in our sister paper, the Edmonton Journal, courtesy of Gordon Edson, who seems to feel it his personal duty to make the town and district a controversial subject in local and provincial circles.

The latest blunder was the recent story about our so-called "parking problem on Main Street". According to Mr. Edson, the problem is the immediate area of the provincial building, suffer because of the parking problem.

Enjoy winter sports safely

Winter sports are fun, but they can be dangerous if you don't take proper precautions. Here are some tips to help you stay safe while enjoying the winter sports season.

1. Wear your seat belt. This is the most important rule of the road. It can save your life in the event of an accident.

2. Don't drink and drive. Alcohol impairs your judgment and reaction time, making it difficult to drive safely.

3. Check your car's condition. Make sure your car is in good working order before heading out on the road.

4. Use proper driving techniques. Avoid sudden stops and starts, and maintain a safe following distance.

5. Stay alert. Avoid distractions like cell phone use while driving. Focus on the road ahead.

BUSINESS CHANGE ANNOUNCEMENT

With pleasure we announce the sale of our commercial printing department to Mr. Andy Clement, who has been in charge of this part of our business for three years.

Mr. Clement will be operating under the name of Edson Commercial Printing Ltd. in the Leader Building. Until we get a sale and finance printing customers will be welcomed through the front office of The Leader.

We will now concentrate on publishing of newspapers and will continue the stationery service we have had in our front office.

To our many customers who have dealt with us for nearly twenty years we say a sincere "Thank You." We feel sure that Mr. Clement will be able to serve your printing needs as we have in the past.

Our newspapers will be continued as usual under the editorial direction of Miss Carol A.H. and Mrs. Carlin will be available for consultation on policy matters during the absence of the undersigned in Ottawa.

Sincerely,
Edson Commercial Publishers Ltd.
Doug Carlin, M.P.

Strong voice needed by farmers

Members and guests attending the annual PMA dinner last Friday evening were told by District 5 Director, Ernie Fehrlin, that farmers needed to hand together in the PMA to provide a strong voice in the province.

Mr. Fehrlin was speaking to an audience of over 100 persons. The dinner and dance was held at the PMA in the PMA building where guests enjoyed a variety of food and beverages.

Mr. Fehrlin spoke first on the importance of having a strong voice in the province. He said that the PMA was the only organization that could represent the farmers in the province. ENTRANCE TO RISE ABOVE SCHOOL, the new Edson elementary school that will be in use when school starts in the New Year. The Division staff plans to start moving furniture into the new school on December 20th and hope to start classes there on January 1st after the Christmas recess.

The new school contains 15 classrooms, two ancillary rooms, a library and a gym. It will accommodate the grade five and six students now in the old brick school as well as most of the grade four classes from Tabin and Evergreen schools.

Attention Sr. citizens

An important meeting will be held in the hall of the Edson Community Centre on Tuesday, November 18th, at 8:00 p.m. The purpose of the meeting is to discuss the plans for the new school and the future of the community centre. All senior citizens are invited to attend.

Rodeo Assoc. meeting this Thursday

The annual meeting of the Edson Rodeo Association will be held on Thursday, November 14th, at 8:00 p.m. in the hall of the community centre. The meeting will discuss the plans for the upcoming rodeo season and the future of the association.

Reduction in gas rate in New Year

At a meeting Tuesday afternoon between Council and officials of Northwestern Utilities Ltd., proposals were submitted, both of which would reduce gas rates in Edson and area beginning January 1st, 1948.

Council at its meeting on Tuesday evening of this week were to decide which of the two proposals to accept.

Next week's Leader will carry further details.

The two men are Mr. [Name] and Mr. [Name], who are both members of the Edson community. They are shaking hands in a friendly gesture, possibly after a meeting or a successful business deal.

Several citizens who attended the meeting on Tuesday evening expressed their satisfaction with the proposals for a reduction in gas rates. They hope that the community will benefit from the lower rates starting in the New Year.

Once again Edson has had to bid farewell to old friends as they answered the final call. Last week it was Mr. John Thomson, this week Mr. Cam Matthews.

These and the others whose footsteps they are following, will be missed along Main Street as they stopped to pick up their mail and visit old friends, to chat about old times which were brighter in their memories than the news of the day.

They have seen life go by for four score and more years, have watched the area develop, young people grow up and become solid citizens, others move away to make a name for themselves in distant cities and lands.

Representative's Privilege?

What right does a member of Parliament switch horses in mid-stream? It seems to be taking a lot of liberty with the people who worked hard to have their party's candidate elected and those who voted him with their money.

The practice of changing colors after election should be discouraged immediately the day could conceivably arrive when elector could leave the poll wondering what party he may have favored in his ballot.

An admirer of Winston Churchill once gushed, "Doesn't it thrill you to know that every time you deliver a speech you will have a large audience?"

In the Commons on November 6th the question was raised as to whether or not a certain New MP's who are noted for their sporadic activities had received these medals. Miss Lofthouse replied that she would send to Canadian civilians in the territories and to all individuals in the federal, provincial and municipal public service who were nominated to all MP's and MLC's and others so nominated would receive the medal. Miss Lofthouse also stated that if some recipients did not wish to accept the medal, that they could return it.

In a reply of many medals and honor awards, it is sometimes difficult to determine their exact reasoning and value.

Certainly if they are given for a purpose and according to predetermined specifications they have some real value and meaning. On the other hand, if they are handed out indiscriminately they surely can't mean much. We believe that this particular ceremonial medal was given with due consideration because it does have high precedence. Miss LaMarsh states that it takes precedence after previously granted commemorative medals but before long service medals and efficiency medals.

It is a final analysis, however, the worthiness of a man is not determined by the number of models he may wear or the number of degrees he may have received (be they earned or bestowed), nor even yet the estimation of his value to the world in the varying opinions of men, including his own opinion of himself. His true worthiness and value will be measured in how he stands before the One who has seen his every thought, word and deed and who has been able to accurately assess the motives behind the deeds accomplished. For this assessment no gaudy models will be needed.

(From *The Victoria Columnist*)

It is apparent from the first list of recipients of the Order of Canada, either as companions or members of merit, that this new decoration, exclusively Canada's own, has been bestowed with catholic and interesting selection. The range of those so honoured touches many

of long past Canada has a decoration of its long list of citizens of a distinctive mark, and upon a certain unique occasion And certain unique have been established with honor to most countries the Order of Merit has been divorced from governmental and the initial reform hears this out the personal and domestic concerned has made its choice in its first national decoration. It is also the first national decoration for individuals and organizations may make recommendations, a provision of the Order of Canada out of the mundane associations of many other decorations.

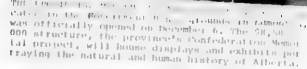

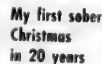

The fields of medicine, labor, music, drama, literature, sports, journalism, parliamentary life, sports,

life—all these are represented in the first bestowals. There should be few if any capricious critics of the individuals singled out for recognition, even if no list could ever please everyone. Subsequent awards of the order will doubtless include many others equally worthy.

A gracious reminder of the late Governor General Vanier, who, had he lived, would have been the first principal companion of the order, the dignity conferred during the Queen's visit upon his successor, Rt Hon Roland Michener, — is the award given to Madame Vanier, who in her own right illumines the decoration and beeds the inclusion of 11 women

No names are listed for the third level of the order, that for the medal of courage, but this will eventually be divided into bravery awards performed and presumably will be awarded as their arise and not be of annual bestowal and announcement.

All in all the inauguration of the Order of Canada has a felicitous air about it, and the chosen recipients well symbolize the quality of its people in this case.

the fact that the water in the Rio Grande originates from a small and water-scarce area. The large population living in the basin has to depend on agriculture and the state for water.

The Rio Grande Commission is the international body that provides technical assistance to the United States and Mexico in the field of water conservation. It is also the body that coordinates the water conservation studies now in progress. The examination of the Rio Grande for conservation is a prelude to existing irrigation works being done in several sections of the basin.

Conservation work which is being carried out over the last few years and is vital to the reproduction of both fauna and flora is the conservation of water supplies. Consequently, a comprehensive study of water conservation is being carried out. This study will include the examination of the water resources of the Rio Grande and the water management practices of the basin. It will also include the examination of the water resources of the basin and the water management practices of the basin.

Shredded and sold as mulch, the leaves are a nuisance to many homeowners. The leaves are also a source of nutrients for the soil, but they are not as effective as a mulch as the leaves of the tree.

The days which have been getting more lately with a kind of days that seem to be long to no one in particular. The days some of them begin one or rather twice a day as the land has way and will extend with the best and most and most. The days are afraid that they will not last long one day and some shall come and will be the end of all the days to be the thing of our time.

Reminders are added to keep the people so that they will not be destroyed.

With pleasure we announce the sale of our commercial printing department to Mr. Andre Clement, who has been in charge of this part of our business for three years.

Mr. Clement will be operating under the name of Edison Commercial Printing Ltd. in the Leader Building. Until we get a side entrance printing customers will be welcomed through the front office of The Leader.

We will now concentrate on publishing of newspapers and will continue the stationery store we have had in our front office.

To our many customers who have dealt with us for nearly twenty years we say a sincere "Thank You" . . . we feel sure that Mr. Clement will be able to serve your printing needs as we have in the past.

Our newspapers will be continued as usual under the editorial direction of Miss Carol Ahlf and Mrs. Casten will be available for consultation on policy matters during the absence of the undersigned in Ottawa.

Sincerely,
Yellowhead Publishers Ltd.

Your Treasury Branch has a better Savings Plan

Now, your Treasury Branch helps you set your money to work in the way that suits you best. Take your pick of these three straightforward plans:

6% 1-to-6-Year Term Saving Certificates

Here's the big one! On a minimum investment of \$10,000 for any term from one to six years, your Treasury Branch now pays 6% per annum. Don't miss this opportunity!

IMPORTANT: Invest now at this excellent rate — Treasury Branch interest rates fluctuate in accordance with trends in the financial field.

1-to-6-Year Term Saving Certificates
Deposit \$500 or more for whatever period you wish from one to six years, and your money immediately starts earning 5 1/2% per annum.

4 1/2% Regular Savings Accounts
Deposit any amount you wish, either at set intervals or when it's convenient. Interest at the rate of 4 1/2% calculated on your minimum monthly balance is added to your account twice a year. Withdraw as much as you need, when you need it. You can make as many as five withdrawals in any one month free.

All of these plans give you complete flexibility. Treasury Branch Term Saving Certificates can be redeemed before maturity at any time after the first ninety days. If you redeem before maturity, you get whatever interest has been earned, but at a slight reduction. Or, you can leave your Term Saving Certificate intact, and we'll add it to your account at the full rate. A Christmas party is here — make plans to celebrate with Treasury Branch. Call on your nearest Treasury Branch right away and let the friendly Manager help you pick your best savings plan.

"And there were in the same country shepherds, abiding in the field, keeping a flock over their flock by night. And lo, the angel of the Lord came upon them, and the glory of the Lord shone round about them: and they were sore afraid. And the angel said unto them, Fear not: for, behold, I bring you good tidings of great joy, which shall be to all people. For unto you is born this day in the city of David a Saviour, which is Christ the Lord. And ye shall find the babe wrapped in swaddling clothes, lying in a manger. And suddenly there was with the angel a multitude of the heavenly host, praising God and saying, Glory to God in the highest, and on earth, peace, good will toward men. And it came to pass, as the angels were gone away from them into heaven, the shepherds said one to another, Let us now go over unto Bethlehem, and see this thing which is come to pass, which the Lord has made known unto us. And they came with haste, and found Mary, and Joseph, and the babe lying in a manger. And when they had seen it, they made known abroad the saying which was told them concerning this child."

and to all, a Merry Christmas

GIVING GIFTS

Since the Wise Men gave of their gifts to the Christ Child, giving has been part of the tradition of Christmas.

The idea of gifts as a holiday custom dates back over two thousand years, when King Midas presented a golden statue to the gods.

The Romans believed that the gods of the underworld, with a silver mirror called the Sarcophagus, during the winter.

Wrong Information

Last week The Leader carried a story about the Christmas Eve, which was accompanied by a picture of a man in a suit, who was identified as the man who was killed in the crash of the British Overseas Airways Corporation plane on Christmas Eve.

The man who was killed in the crash of the British Overseas Airways Corporation plane on Christmas Eve was not the man who was killed in the crash of the British Overseas Airways Corporation plane on Christmas Eve.

Recreational program to be investigated

Provisionary discussions are being held which could eventually lead to the development of a recreational program in the town of Matthews. The plan, if approved, would see a central recreational center established in the town. The center would be used for a variety of recreational activities and would be a very valuable asset to the community. The plan is being discussed with the town council and the community. Roots of Canadian culture lie in the Christian faith

In a Christmas message to Canadiana, Commissioner Clarence D. Wiseman commander of The Salvation Army in this country, emphasizes that the primary loyalty of the Canadian Christian is to his sovereign Lord, Jesus Christ. "It is a dual citizenship," he does not ask to put out of his responsibilities as a citizen, but Christ has prior claim on his loyalty, love and service. Any competing claim that would usurp Christ's place of pre-eminence

is to be rejected,'

Commissioner Wiseman points out that in our complicated urban society it is often difficult to distinguish between causes and claims that are harmful and those that are helpful.

Simple solutions are wisdom at hand, 'intimacy with Christ through prayer

Stressing that the roots of Canadian culture lie in the Christian faith, Commissioner Wineman suggests that it will be a sad day for Canada if the nation tolerates the slow erasure of

May 1962

Canada's history is part of world history and draws its excellence from the Indian-European tradition. The nation should be alerted to the dire consequences that could result from the erosion of this tradition which has at its heart the controlling concept of divine sovereignty over all human affairs. Loyalty to this faith could well pave the way for more forceful action.

THE PUMPKIN - Like to have your coffee with a little something? This is really different when it's time to pump the party? Make it rolls into, bring you on a recipe or the new babies.

NOT THE LEMONADE
(Between 9 - 12 servings)

3/4 cup cold water	3 tablespoons instant tea or
3/4 cup granulated sugar	0 sugar
3 granules freshly squeezed	12 whole daisies
cold water	1/8 cup brown juice

Make simple syrup by combining 3/4 cup water and 3/4 cup granulated sugar in a saucepan. Bring to a boil, reduce heat and simmer 10 minutes. While syrup is simmering, prepare tea by bringing 3 cups of freshly squeezed cold water to a full rolling boil. Immediately add the tea leaves and steep for 3 to 5 minutes. Strain into a straining cloth or other fine mesh strainer. Add simple syrup, daisies and instant juice. To serve, place a lemon slice on top of each glass.

To Joke on His Birthday

For this year another round of the cold. For the blind you see the world through the eyes of others. A person with a day to live. The money he's dug out of the people's pockets. The money he's dug out of the people's pockets. The money he's dug out of the people's pockets.

To those who have been blind since birth. To those who have been blind since birth. To those who have been blind since birth. To those who have been blind since birth. To those who have been blind since birth.

THREE CHRISTMAS

Open Up Your Heart And Mind

Right and wrong tell us that Christmas is not just a time for giving and receiving. It is a time for giving and receiving. It is a time for giving and receiving. It is a time for giving and receiving. It is a time for giving and receiving.

Christmas, the birthday of Christ, marks the anniversary of mankind's greatest heritage. It is a time for giving and receiving. It is a time for giving and receiving. It is a time for giving and receiving. It is a time for giving and receiving.

Small Appliances May Be Good Gift

A small electric appliance is a practical gift. It is a time for giving and receiving. It is a time for giving and receiving. It is a time for giving and receiving. It is a time for giving and receiving. It is a time for giving and receiving.

It is a good idea to give a small electric appliance as a gift. It is a time for giving and receiving. It is a time for giving and receiving. It is a time for giving and receiving. It is a time for giving and receiving. It is a time for giving and receiving.

Christmas Entertainment

HEIGH HO, THE HOLLY!

Blow, blow, thou winter wind—
Thou art not so unkind!
As man's ingratitude!
Thy tooth is not so keen,
Because thou art not seen,
Although thy breath be rude.

Heigh ho! sing heigh ho!
unto the green holly,
Most friendship is feigning,
most loving mere folly,
Then heigh ho! the holly!
This life is most jolly!

Freeze, freeze, thou bitter sky—
Thou dost not bite so nigh—
As benefits forgot!
Though thou the waters warp,
Thy sting is not so sharp
As friend remembered not.

KOEBE PLUMBING & HEATING

CHRISTMAS TREATS

Fruit desserts and traditional drinks are a familiar
part of the Christmas observance.
Yet no festive are more associated with the holiday than
stew pudding and mince pie.

The original plum
pudding was
cooked by the
housewife
baking party
first in the
kitchen, and
then in the
parlor.
It consisted of
dried fruit
and a mass of
butter, eggs,
sugar, and
flour.
After the
pudding was
cooked, it was
soaked in the
Port wine
and served
with a
custard sauce.
The pudding
is now made
in a different
manner. It is
made of
dried fruit,
sugar, and
flour, and is
served with
a custard sauce.

WINE ORNAMENTS

THE festive spirit of
Christmas gets into the
wine when you use
wine ornaments.
The ornaments are
made of glass and
are shaped like
wine bottles. They
are made in many
different colors and
are very attractive
when used on a
wine rack.

Is it true, as some healing claim that Santa the Russian has been transformed by modern customs into Santa the English? "I don't think we need good old St. Nick," some of our educators contend. "Children's parents, instead put an end to the Russian Claus." Confessing to giving minds they say

Doesn't he really bring generosity and thoughtfulness to the children?

In the imagination of a child, Santa is a mysterious figure. And let's face it, it is in flux now in good old St. Nick that many of the children are. It is a great arrival each Christmas Eve. Have you heard the story of the boy Christ from the parents?

*In white array the snowflakes fall
To cover all the scars of earth,
Silent, soundless, yet withal
Unobscuring the taste of mirth,
Laughter of children unconfined
Who, innocent, see every one
The promise of Yuletide days defiled
In the biting nip of the frosty air
And over the land, and o'er the town
In the marketplace and down the street,
Where the aged sigh to all these days,
Where the young are heard of tiny feet,
The age-old greetings to hallow again
A cry of joy to open heart doors
Echoing through the world of men,
"A Merry Christmas to you and yours!"*
